'57 Champs Come Home
After 20 Years

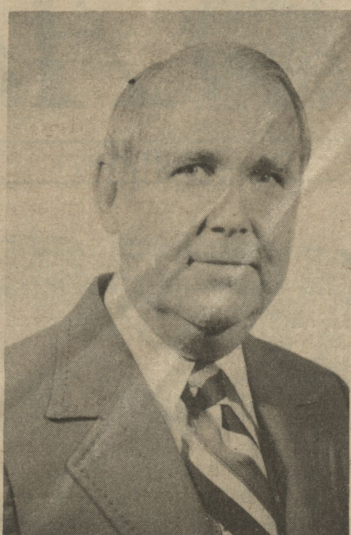

Pharmacy Names 3 Distinguished Alumni

James T. Davis '52

John P. Beasley '55

Winfield Cotton '50

Auburn's School of Pharmacy has bestowed its highest honor on three alumni, who have been named to receive The Distinguished Alumnus Award. The three recipients are James T. Davis '52 of Columbia, John P. Beasley '55 of Columbia, and Winfield Cotton '50 of Mobile.

Mr. Davis is past president of the Alabama Pharmaceutical Association and has served on the Auburn Pharmacy Advisory

Council. He is current president of the Alabama State Board of Pharmacy.

Mr. Beasley, in addition to his pharmacy interests in Columbia and Georgia, is president of a realty firm and director of a bank. He is also past president of the Alabama Pharmaceutical Association and a member of the State Board of Pharmacy and the Auburn Pharmacy Advisory Committee.

Both Mr. Davis and Mr. Beasley are winners of the national Bowl of Hygieia Award, presented to one pharmacist in each state by A. H. Robins, a pharmaceutical company, in recognition of that pharmacist's community service.

Mr. Cotton, vice president and general manager of Durr Drug of Mobile, is active in pharmacy groups in both Alabama and Mississippi and is personally responsible for organizing county associations throughout Alabama. He too is a member of the Auburn Pharmacy Advisory Council.

J.M. Richardson Scholarships Established

The Jesse Monroe Richardson Scholarship Fund has been established at Auburn in tribute to Dr. Richardson, professor emeritus of geography, who died July 7. Its purpose is to provide scholarships to outstanding students majoring in geography.

Friends, relatives, and Department of Geography faculty members began the memorial fund which will be administered by the Alumni Association. Alumni wishing to contribute can send checks payable to the Auburn University Foundation, designated for the J.M. Richardson Scholarship Fund. Contributions will be credited as Annual Giving gifts by the Alumni Association.

Dr. Richardson retired from AU in August, 1973, after 30 years on the faculty. As professor emeritus, he continued to occupy his office, devoting much time to writing. He compiled and edited the *Alabama Encyclopedia and Book of Facts*. He was co-author of an economic geography manual used at Auburn for many years, as well as an elementary textbook, *The Geography of Alabama*.

He was a regular contributor to the *World Book*, and as historian for the Alabama Association of Retired Teachers, contributed to *Our Yesteryears*, a history of public education in Alabama.

Greene Dies

Dr. James E. Greene '33, dean emeritus of the School of Veterinary Medicine, died of a heart attack on September 20. A story concerning his 40 year career at Auburn will be in a later issue.

In addition to teaching and writing, Dr. Richardson served as chairman of the Algernon Sydney Sullivan Award selection committee, and for many years was chairman of the faculty committee for Religious Emphasis Week.

A native of Guin, Dr. Richardson received the B.S. and M.S. from the University of Alabama, and earned the Ph.D. at Peabody College.

Complete Work in Three Years—

Engineering Grads Aren't Typical

By Deborah Hocutt

David thinks engineers would make the best politicians and Cindy feels that a woman engineer's best bet is a career in management. They don't sound like the "typical"

engineering student types, and they aren't. David Motes and Cindy Hess have been named the summer School of Engineering Outstanding Graduates. The two are unique in that they finished the four or five-year engineering curriculum in three years, David with a 2.9 and Cindy with a 2.55 out of 3.0 grade point average.

"If I had it to do again, I don't think I'd go straight through, though. Another year to mature in the profession would be an advantage," said David, a chemical engineering graduate from Sylacauga.

The 21-year-old said that when he entered engineering in the fall of 1974 he "didn't even know what an engineer was." A summer of co-oping with the Alabama Air Pollution Control Commission showed him that chemical engineering was the right curriculum for him, though. While co-oping, he designed a standardized pollution emissions calculation procedure that is now used by the Alabama Commission.

Thinks Engineers Good Politicians

One of his most memorable experiences at Auburn, David said, was his race for SGA engineering senator.

"While most candidates used more than the campaign fund limit of \$75, I ran my entire campaign on 43 cents, which I spent on straight pins for name tags," he said.

David didn't win, though he ran a close third. "I did it to prove that basing a campaign on big money opens the way for illegal subsidies," he explained.

He said his training made him more aware of waste and inefficiency in politics.

"In my opinion, engineers would make the best politicians," he said. "They are trained to solve problems efficiently, and that's what government is all about."

At Auburn, David was a member of Phi Kappa Phi

national honorary, as well as several engineering organizations. He assisted Dr. Ray Tarrer of chemical engineering in a research project to convert sawdust into animal feed. David believes this experience gave him a clearer understanding of a researcher's role and will help him later when he hopes to get involved with environmental engineering.

The son of Mr. and Mrs. Miles L. Motes of Sylacauga, David will join Exxon as production engineer in the Gas Processing Section at Pensacola this fall.

Two Terms As Head of EE Honorary

Cindy Hess, an electrical engineering graduate from Huntsville, is the first woman president of Eta Kappa Nu, the electrical engineering honorary at Auburn, and the first person elected to two consecutive terms as head of the group. She wants to use her engineering training to eventually get into company management.

"I'd like to get high enough in the company to have the authority to make that company the best it could be," she said.

Women In Management

"I think it's advantageous for a woman engineer to get into management because of family life. When I have children, I'll drop out of work for two or three years at a time. And technology won't stop for Cindy to have a baby. When I get back to an engineering job, things will have changed so much I'd never catch up. Management doesn't change that fast," she said.

Pre-College Counselor

At Auburn Cindy was chosen as one of 42 pre-college counselors who help orient incoming freshmen to college life during the summer. She enjoyed the opportunity to introduce them to all phases of the uni-

versity, from "housing and parking to the social scene and student health." Like David, Cindy financed her own college education.

She assisted Dr. Troy Nagle in the EE Department with a computer project in which information generated from a cotton gin by a micro-processor was stored on cassette tapes for later research to improve cotton processing. She feels this experience will be invaluable when she joins Chrysler Corporation this fall.

"At Chrysler I'll be in the electronics division in Huntsville, working with research to replace conventional carburetors with micro-processors to make cars more fuel efficient," she explained.

Cindy had to choose from eight job offers; one company even wanted to send her to graduate school if she'd join them.

Cindy is the 20-year-old daughter of Mrs. Levia E. Hess of Huntsville.

PROMISING FUTURE ENGINEERS—The summer quarter Outstanding Engineering Graduate from Auburn is David Motes of Sylacauga (left), who

graduated in chemical engineering. Cindy Hess of Huntsville, alternate, is in electrical engineering. Dean Vincent Haneman made the awards.

Johnson Memorial Scholarship

The Earl D. Johnson Memorial Scholarship Fund has been established at Auburn through the donation of \$20,000 by his wife, Jean Swift Johnson '72 of Sheffield. Income produced from the trust will be used to provide scholarships on the basis of need to students in engineering or pre-engineering, with preference given to graduates of Sheffield High or Colbert County.

Mr. Johnson was employed as an electrical engineer with Reynolds Metals Company in Sheffield when he died from injuries received in an airplane crash last April.

"Earl's love for Auburn has always been strong and even though critically injured in an accident, he was talking about Auburn," Mrs. Johnson said in establishing the memorial fund.

"Auburn played a big part in our lives and gave us many, many years of happiness and memories. I establish this scholarship out of deep love for my husband and for what Auburn University did for us and what it can do for many people to come," Mrs. Johnson stated. Mr. Johnson lettered in track and football at Sheffield High where he was an honor student. Based on these accomplishments, as well as on service, leadership, and citizenship, he was awarded the Stanford-Thompson Award.

He also received the J.A. Wilson Scholarship to study

engineering at Auburn where he received his degree in 1972. He worked alternate quarters with Reynolds Metals under the cooperative education plan while studying at Auburn. He was a member of Theta Chi fraternity, the Institute for Electrical and Electronic Engineers, and Eta Kappa Nu electrical engineering honorary.

Following graduation, Johnson served six months active duty with the Army National Guard before going to work with the General Electric Company in Somerset, Ky., and later in Waterford, N.Y.

He returned to Sheffield and to Reynolds in 1974 where he continued until his death on April 5, 1977.

Mr. Johnson served as chairman of the Muscle Shoals Section of IEEE and received his Engineer-in-Training Certification from the State of Alabama in 1976.

Dr. Bailey Returns: Dr. W.S. Bailey, professor of pathology and parasitology at Auburn, has returned from a five-week residency at the Rockefeller Foundation's International Conference and Study Center in Bellagio, Italy. As an outgrowth of his residency, Dr.

Bailey will address the American Society of Tropical Medicine and Hygiene at the Society's annual meeting in Denver, Colo., in November. The address will later be expanded to a monograph, "Veterinary Medicine and Comparative Medicine in International Health." En route to Italy, Dr. Bailey spent two weeks in the Philippines studying the vaccination and quarantine program for foot and mouth disease in that country. While in the Philippines, he conferred with Bureau of Animal Industry officials about the new national liver fluke control program. Dr. Bailey helped initiate a similar pilot control program in 1971 under the sponsorship of the Food and Agriculture Organization. From the Philippines, he went to Australia for two weeks to attend the Third International Congress on Immunology and the Eighth International Conference of the World Association for the Advancement of Veterinary Parasitology.

Exhibits: Nancy Walls, who has been a member of the Auburn University Art Department for twelve years, exhibited 36 of her drawings and paintings at the Lurleen Burns Wallace Fine Arts Center, University of North Alabama Art

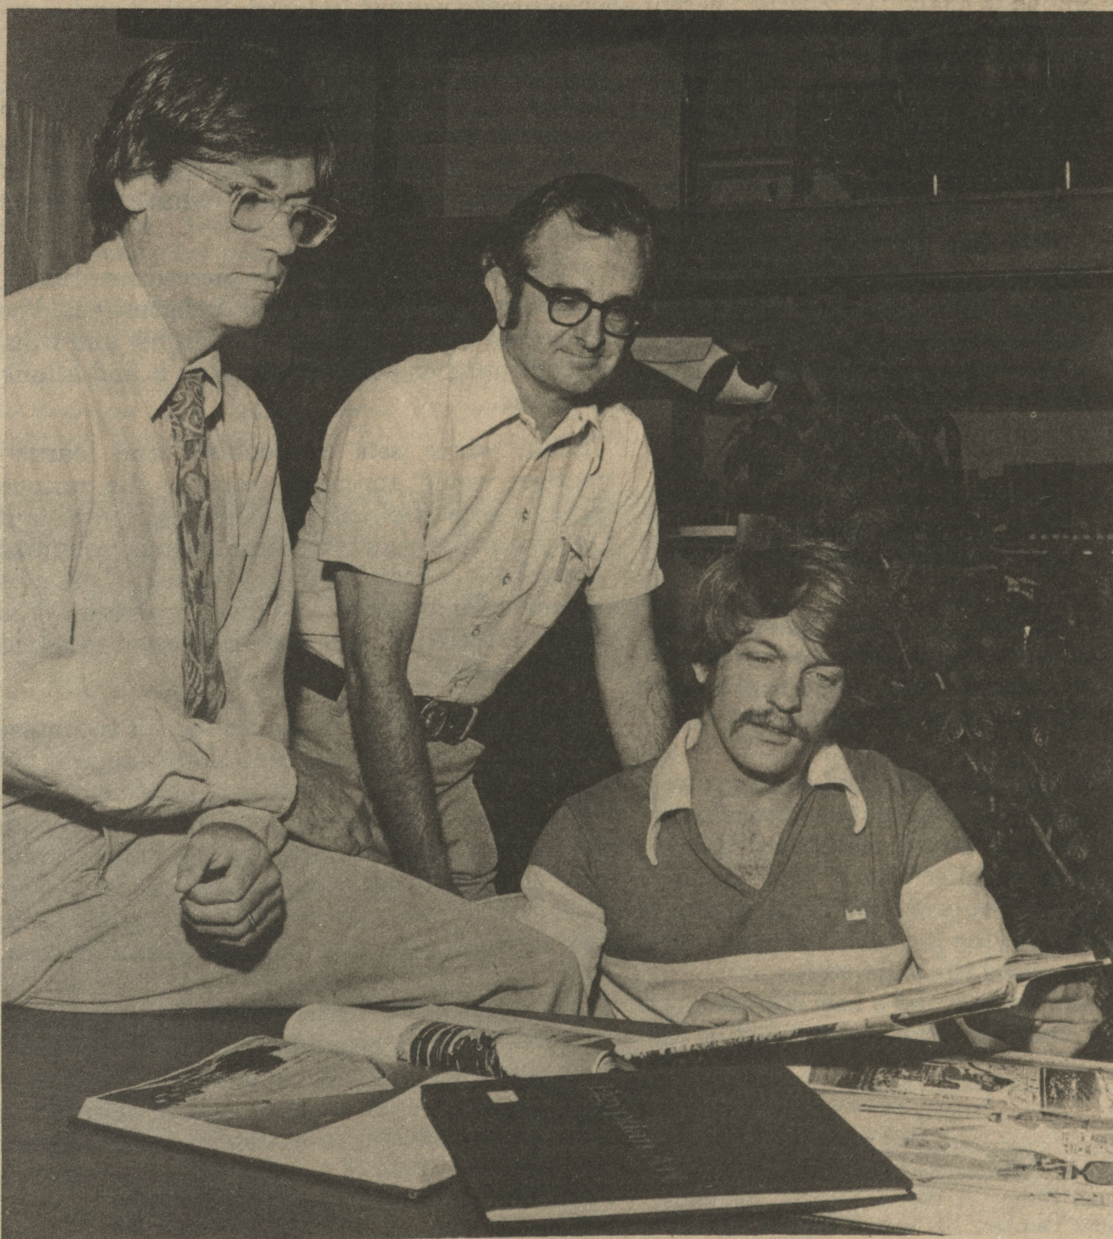

MEMORIAL SCHOLARSHIP—Mrs. Jean S. Johnson '72 of Sheffield presents a check to Auburn President Harry M. Philpott to establish the Earl D. Johnson Memorial Scholarship Fund. The fund honors her husband, an Auburn alumnus who was fatally injured in a plane crash last April. —AU Photo

Gallery, in September. Mrs. Walls has numerous purchase awards to her credit, and her work hangs in the Columbus (Ga.) Museum, Birmingham Museum of Art, and the Museum of Fine Art, Montgomery, as well as at Auburn. The artist has participated in nine juried shows in the past year, including the 54th annual national exhibition, Meadows Museum of Shreveport, La., and the 53rd annual national exhibition at Springville Museum of Art, Springville, Utah.

Textile Finishing Process: Bob Walker and Warren Perkins, associate professors of textile engineering, are using a recent \$98,000 research grant from the U.S. Environmental

Protection Agency to develop a textile finishing process which reduces the amount of costly textile waste treatment. Presently, great amounts of hot water are needed to remove a protective coating, size, from fabrics during the finishing process. In the new process, costly water treatment is reduced or eliminated, since cold water rather than hot is used. Consequently, three-fourths of the energy now needed to de-size fabric can be saved. An additional benefit of the new method is the easy recoverability of the sizing material, which can then be recycled. The new process grew out of previous solvent de-sizing research in which the two AU professors found a chemical which has the unusual property of dissolving in cold water rather than in hot.

RECIPIENT OF \$1,000 AWARD—David Herrick, right, of Hollywood, Fla., who graduated from Auburn in August with a degree in architecture, was second prize winner and first alternate in the 1977 William

Van Alen Architect Memorial Award, a national award for further education in architecture. From left are Lewis Lanter and Nick Davis, major professors of Herrick, who designed a tourist complex.

Knights Hold Reunion

The Auburn Knights held their annual reunion the first weekend in August, bringing back to town former members of the Knights from all over the U. S. Charlie Wood '44 is president of the Association and Gene Smithson '54 vice president.

This year's reunion featured the 1930's Alumni Band, the 1940's Alumni Band, the All-Star Alumni Band, and the Dixie Knights as well as the 1977 Auburn Knights.

Leading the 1930's Alumni Band (and playing sax) was Earl Starnes '35. Members of the band included: on sax, Jim Vance, Merwin York, Allen Cowart, Mike Ellis, and Frank Buford. On trumpet: Bill Porteous, Charlie Higgins, Henry Vaughan, Dan Culley, and Bob Hill. On trombone, Jim Motley and Frank Speight. On drums, Gayle Riley and Iran Grable. George Poole on piano, Bob Darling on bass, Doc Mosley on violin, and Jack Dimmerling as vocalist.

Bob Hurston '49 led the 1940's Alumni Band and played trumpet. Doug Stevens was on drums with Graham Thomas, Walter Howell, Bob Ware, Bill Calloway, A. J. Coleman, and R. D. Browning on sax; Jimmy Taylor, Rudy Blackmarr, Mal Pierce, Don Cully, Paul Irvine, and Jim Appert on trumpet;

Gene Mullins, Charley Ard, Gene Smithson, Don Irvine, and Vic Atkins on trombone; and Bob Richardson, Dilson Petrey, and Mal Taylor on piano.

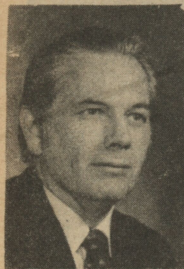

Leading the All Star Alumni Band and playing sax was Bob Greenhaw '65. Playing sax were Dave Edwards, Bobby Boettcher, Rick Bell, John Conner, and Sonny Mayfield, with Buddy Golson, Willie Hammett, Tommy Goff, Donny Davidson, and Tommy Odum on trumpet. On trombone were Dick Johnson, Cecil Wilder, Wayne Roseborough, and Dale Mann. Rounding out the band were Herb Edwards on bass, Rick Bean on piano, Jack Gibson on drums and Dannie Sue Bell as vocalist.

Making swinging Dixie music were the Dixie Knights, led by Bob Hill '47 (who also got in some trumpet playing). Band members included Bob Adair and Merwin York on clarinet, Gene Smithson on trombone, Bill Hill and Joe Noojin on piano, Ed Edney on Bass and Charlie Wood and Doug Stevens on drums.

Inexcusable Behavior

By Jerry Roden, Jr., '46

On keeping abreast of fashionable trends in word usage, I am notoriously slow of study. For decades, I have employed the terms *literacy*, *discipline*, *fundamentals*, and *basics* with habitual favor, blandly innocent of their current symbolic import. Yes, believe it or not, I became aware only during the past three months that such usage renders one suspect in progressive circles of *elitism*, *pedantry*, *racism*, *male chauvinism*, and plain *bigotry*.

Roden

My only excuse for such flagrant error is that better men than I have been guilty of the same inexcusable breach of decorum. And, as a matter of fact, a few benighted and unenlightened souls continue this reprobate practice today—blindly unaware of their depravity or brazenly insensitive to the fate of our children.

For example, *Newsweek* in its issue of September 12, 1977, cites the case of Leroy Lovelace, a native Alabamian who teaches in Wendell Phillips High on Chicago's Near South Side. Mr. Phillips demands that students attend his classes regularly, or else receive failing grades automatically.

He considers *reading* and *writing* the *fundamental* skills of communication and places them at the heart of his teaching method. Even though he teaches a senior course in comparative literature, he usually begins drilling each new group of students in grammar and spelling and thereafter penalizes students for basic errors. He makes his students write a theme each week and requires each student to defend his essay before a jury of his peers.

After his students get through the initial drills in basics, they have to tangle with such authors as Homer, Ibsen, Melville, Camus, T. S. Eliot, and E. B. White. Mr. Lovelace not only demands that his brood from deprived neighborhoods read such erudite and alien authors in a drug-infested school but also expects them to grasp the "subtleties and symbolism" so that "the characters come alive off the page."

What can one say in defense of such an antiquated pedant? If I were of the most progressive persuasion, I could apologize for him with the explanation that he has not overcome the effect of being born and reared as a black man in Mobile, Alabama. But I haven't progressed that far yet, despite my recent enlightenment. The only ameliorating circumstance that I can cite to excuse Mr. Lovelace's breach of progressive etiquette is that he gets results—If one can place an iota of faith in *Newsweek's* veracity, he gets amazingly good results with the unfortunate brats who fail to elude his grasp.

Of course, I am now aware that success of that sort is a poor excuse for such flagrant violation of decorum—that the more he succeeds the more guilty he is of proliferating *literacy*. But equity demands some credit for a poor misled human being striving his utmost to promote an outmoded principle. After all, as we noted at the outset, some people are just naturally slow of study.

Esoterica for Everyone—

The Woes of Crabgrass Farming

By Bob Sanders '52

(Reprinted from *The Auburn Bulletin*)

Mr. John Kelly, of the Loachapoka Kellys, is a man a body can talk to. He understands and appreciates the important things. For example, when I chanced to stop in at the hardward store the other day, he was concerned about the condition of my steel beam breaking plow; was it in good condition for the work at hand?

I told him that, yeah, everything seemed to be all right, that I had just fitted a nice new blue case iron point in place and scratched up the slats a little so the rust would be cut through quicker and that nice, smooth scouting action could take place as the plow sliced through the mellow spring earth.

We discussed an ad I had recently seen in a Sears catalog (1902) about a breaking plow. In the illustration, it looked like a fine specimen of a plow, the copy explained that it was as good a plow as you'd find anywhere, and told about how sturdily it was put together and how good the materials in it were, and everything.

That plow was available, the copy said, with moldboards of different types. For certain soils, you could get a longer, straighter moldboard. For other types, a shorter, more curved moldboard was available. There was one for any situation.

We agreed that there is no prettier, more satisfying work than breaking good soil with a good plow behind a good pair of mules, you know, when there's just enough moisture in the soil to make one side of each soft clod slick as glass. We noted, however, that if there is a tad too much moisture, particularly if you're working in clay, those clods can harden into formidable rock-like chunks.

Mr. John pointed out, also, that considerable care must be taken, or the ploughman will wind up with a wicked sliver of a last year's corn stalk stabbed into or in between his toes. Oh, the misery.

I told him that up in red clay hill country, we were somewhat partial to the slatwing breaking plow instead of the solid moldboard type, although in the smaller sizes—the Avery Crickets and Oliver Goobers used for wrapping up corn just before laying by, after the soda had been dropped—we used the solid wings....

Ah, yes, he said, as he found a heel bolt for one customer and a back band for another, while at

the same time searching through some bins for a set of loggerheads for still another, springtime was nice, especially after such a foul winter.

He said he was beginning to worry some about the threat of crabgrass. he said it was plumb amazing how just a few hair-like sprigs can in just a few days develop into a massive cluster that will completely swallow up young stalks of corn or cotton or garden plants. Amazing.

Wouldn't it be something, we speculated, if the experts over on Ag Hill or somewhere would come up with a use for crabgrass. It's a pity, we said, that something with such an astounding capacity for reproduction couldn't be put to some beneficial use. Whole industries would spring up, bringing the joys of industrialization and overpopulation to the most peaceful communities. The perfect crop. Just plow up a field and sit back. No seeds to plant, no cultivating to do. Veritable clouds of crabgrass would soon cover the field, ready very soon for harvesting and then use in the making of who knows what wondrous product.

But, as more sober thoughts pierced our elation, we realized that if some use for crabgrass could be developed, bugs and fungi and blights and wilts without number would hear about it and attack en masse.

Soon, whole sets of booklets and learned treatises would appear concerning the various ways to do battle with the Crabgrass Crud and Crabgrass Creepers threatening to put crabgrass farmers out of business if not stopped. There'd be schedules for spraying and dusting that must be rigidly adhered to if a farmer wanted to avoid total economic ruin.

And there'd be the usual problem of volunteer cotton and corn and soybean plants coming up all over the field and crowding out the crabgrass. Pre-emergence herbicides would be recommended. The Extension Crabgrass specialist would urge farmers to stop depending on carry-over seed, but to use only certified crabgrass seed, guaranteed to have less than one percent of corn, cotton and other undesirable seeds....

Mr. John said, heck, he might get out of crabgrass altogether and switch to bitterweeds. Now there, he said, was something that would grow on the poorest hillside, and in addition to the powerful substance in them (one microgram can alter the taste of a whole lard bucketful of milk), there's the added attraction of the beautiful yellow blooms.

Yeah, I said, there were a lot of decisions we farmers had to make, as I picked up the hamestrings I had gone in there for in the first place and went on back out to the wagon....

AUBURN ALUMNEWS
Volume XXXII—No. 8

October, 1977
General Edition

KAYE LOVVORN '64 Editor
PAT KELLER '69 Editorial Assistant

THE AUBURN ALUMNEWS is published ten times a year at four-week intervals, September-July by the Auburn Alumni Association, Auburn University, Auburn, Alabama, 36830.

Officers of the Alumni Association are: President, Lloyd Nix '59; Executive Secretary, George (Buck) Bradberry; Executive Secretary Emeritus, Joseph B. Sarver, Jr., '37; Associate Secretaries, Tommy Lambert '74, Julian Holmes '62, and Jerry Smith '64. Executive Committee: Lawrence McKinney '59, Davis Collier '54, James O. Walker '57, Grady F. (Buddy) Edwards '59, C. Bert Hill '53, Albert M. Thompson '42, Duncan Liles '43, ex-officio. Second class postage paid at Auburn, Alabama 36830

By Pat Keller '69

Sixty Years Ago: America was at war and the mood at Auburn "sober and earnest" as the senior class elected officers, among them a class orator, O. L. Martin; a class poetess, Laura Watt; and a class cheer leader, W. C. McKay. But those students who had left Auburn to fight the Great War had already become, in a sense, their own orators, poets, and cheerleaders. While Auburn's R.O.T.C. cadets were studying "Hygiene and Camp Sanitation" and searching the attic of the main building for Spanish-American War-vintage rifles in order to have enough weapons for drills, their former classmates were barrelling through the French countryside, hauling ammunition past shelled cathedrals, or marching through London, cheered by the people and saluted by the king. And they were writing home about it.

Allen Williamson '18 wrote that he had driven, in shifts with another soldier, "all [the first] night, the next day, the next night, and until eleven o'clock of the following day without stopping," running at night without lights. But, he said, "You get used to the dark. In fact, we are all becoming very much like cats, since most of our work, especially transporting munition, is done at night. In day time the 'Boches' can shell us too easily."

W. R. Dillard '17, a sergeant, "would not take anything in the world for what I have been through with and seen so far.... One of the many things that we have done is to pull off a parade in the city of London. Our parade was the first parade under the arms of a foreign country since sixteen hundred, and it was the first military parade since the war began. We went through Picadilly, Trafalgar Square, and many other places that I have heard about. We passed by Buckingham Palace and in front of the palace were reviewed by the King and Queen. The King saluted the flag, the first time such a thing has happened. Then we march-

ed in St. James Park, and were given a wonderful lunch. The people treated us royally. Anything they could do for a "Sammy," as they called us, they did. I have never in my life seen such a crowd. The streets and buildings were packed."

A review of the football season through October: Auburn 68, Florida 0; Auburn 7, Davidson 21; Auburn 31, Vanderbilt 7.

Fifty Years Ago: There were varied causes for celebration at Auburn. Euil "Snitz" Snider had recovered from the mumps and had been elected captain of the track team. And although he had been out most of the previous season because of his malady, he was cited by the *Alumnus* as "one of the greatest sprinters in America." "Snitz" bore out this praise by winning a berth on the '28 U.S. Olympic team.

Professor and Mrs. Clifford LeRoy Hare, '92 and '99, respectively, announced the engagement of their daughter Emily '25 to Philip Henry Hardie '21 of Brooklyn, N.Y. The couple were married November 8. They are married still and live in Auburn.

Auburn defeated Alabama 13-8 but only in a baseball game between Birmingham Jr. Chamber of Commerce members who were alumni of the two schools. Auburn's lineup included: centerfield, T. E. Phillips; shortstop, Harvey L. Kyle; catcher, C. A. Jones, Jr.; rightfield, W. P. Breen and (relief) Hunter Wallace; leftfield, Fred C. Hahn; second base, William Ware; third base, Harry Watkins; first base, Herb Hahn; and pitcher, Ralph Webb.

Forty Years Ago: Auburn had lost alumni, 800 out of 20,000 ex-students, but Miss Claire Culver, the Alumni Association's full time assistant, was busily searching for them. Presently, Auburn has 5,144 lost alumni; however, 75,

755 alumni are found. They receive the *Alumnus* ten times a year.

W. P. (Noisy) Grisham, a Banders, Texas, vocational agriculture teacher and one of the greatest tackles ever to play at Auburn, visited the campus.

Because of the growing enrollment, Auburn was forced to limit the number of non-resident students. In the 1936-37 regular session, 444 students came from out of state. Distribution of students by home state or country is shown below: Alabama 2,149, Georgia 166, Florida 72, New York 34, New Jersey 24, South Carolina 20, Tennessee 10, Mississippi 15, North Carolina 10; Pennsylvania, Virginia, and the District of Columbia, 7 each; Connecticut, Louisiana, and Ohio 6 each; Illinois 4; Arkansas and West Virginia, 3 each; Indiana, Maine, Kentucky, Maryland, Texas, and Missouri, 2 each; California, Iowa, Michigan, Minnesota, New Hampshire, and Oklahoma, 1 each; and Mexico 3, Canal Zone 2, Cuba 2, Philippine Islands 2, France 1, and Puerto Rico 1.

Thirty Years Ago: The question in every Tiger fan's mind was—Will Travis Tidwell be

able to play football this year? The nation's 1946 offensive leader, Travis had broken a leg bone and sprained an ankle while sliding into base during the spring baseball season.

Frank Sego, reporting Who's Who on the football squad, noted a goodlooking crop of freshman and returning reserves in the AU lineup—except for one unfortunate soul who was described as a "210-pound gorilla-like freshman." Also, Ray Pelfrey, who had scored four times in the "A" Day game, had "continued to run wild all summer."

Auburn's new Forestry Department had been made official July 1, and the Alabama legislature had voted the program an annual budget of \$25,000 for forestry education and an equal amount for research. A \$150,000 building and \$50,000 for maintenance had also been promised. Lamar H. Ware, head of the department of the forestry and horticulture for 16 years, was the man chiefly responsible for making the separate forestry department possible.

Twenty Years Ago: Eleanor Whitelaw '36 had just been appointed associate news director

of WRBL radio and television in Columbus, Ga. She listed her two children, Alice, 13, and Eleanor, 10, as family members, but she also included Buster, her dog; Virgil, her Persian cat; and Go and Go-Go, her two goldfish.

Miss October for 1957 was Linda Welch, a junior in advertising design from Friendship, Tenn. Mr. October was a tie among the members of the football team, with Jimmy (Big Red) Phillips slightly in the lead.

National publicity followed the Tiger-Tennessee game, with even the Tennessee newsmen reporting in favor of the team from the loveliest village. Ben Byrd of the *Knoxville Journal* related that "Phillips went through Tennessee like a dose of milk of magnesia." Said the *Knoxville News-Sentinel's* Tom Siler—"Tennessee lost one of the most one-sided 7-0 games ever played on Shields-Watkins Field." At home in Alabama, Benny Marshall of the *Birmingham News* told the story exactly as he saw it—"Seven-to-nothing does not begin to tell the story of complete Auburn mastery on a day meant for MEN only—and Tigers." The rest, of course, is history, and a special kind of alumni reunion twenty years later.

Auburn Alumnaalities

1909-1929

Robert A. (Bob) White '09 recently celebrated his 90th birthday. His wife, Ina, was 89 on the Fourth of July. They live in Pensacola, Fla., where they celebrated their 67th wedding anniversary on Valentine's Day. The Whites like to drive around town in their '54 green Chevy and Mr. White will play the piano for his friends at the drop of a hat. He spent his career working for the railroad and as a pharmacist.

James E. Williford '16 now lives in Ontario, Canada.... **Fred W. Jenkins '22** now lives in Nashville, Tenn.... **Charles L. Cansler '29** has moved to Alexandria, Va.

1932-1936

Kenneth R. Clark '32 now lives in Camarillo, Calif.... **Effie Morrison Floyd (Mrs. D.H.) '32** lives on Route 1, Lineville 36266 and is suffering from a broken hip. Old friends may wish to contact her.

Frank McQueen '35, survey entomologist with the Auburn Extension Service, was honored in June by cotton growers, agribusinessmen, and researchers at the conclusion of cotton scouting school at Auburn. Mr. McQueen, who has taught cotton scouting schools since 1963, will retire in early 1978 so this was his final scouting school. He has had a key role in the development of Alabama's cotton scouting program which has been used as a model nationwide. Before joining the Extension state staff in 1963, Mr. McQueen spent 23 years as an assistant county agent, county agent, and commercial entomologist.

Neill G. Stevens '35 retired April 1 after 17 years as assistant manager of the Baldwin County

Electric Membership Corp. and 41 years in the electrical utility business. He will continue to live in Foley.

Mr. and Mrs. Walter D. Smith (Annezell Oxford Gilmore '38) '35 have moved to Montgomery from Seattle, Wash.

Lucile Mallette retired from the Auburn Extension Service on December 31. She continues to live in Auburn.

1937-1939

Elizabeth Allison Comer '37 is now Mrs. Mark Corr. They live in Selma.

James M. Eagan '39 is the new chief engineer of the engineering department of Hercules Inc. He has been with Hercules since 1939 when he joined the company as a chemist. He held a series of management positions and became director of the International Department in 1968. In 1972 he transferred to Lahore, Pakistan, as general manager of Dawood Hercules Chemicals Ltd., a fertilizer producing joint venture. Mr. Eagan returned to the U.S. in 1975, when he was named assistant chief engineer in the corporate Engineering Department.

1940-1942

NEW ADDRESSES: C.G. Haynsworth '40, Baltimore, Md.; Vasco Rudolph Geer, Jr., '40, Mobile; Phillip M. Edwards '41, Havre De Grace, Md.; Charles L. Davis '42, St. Augustine, Fla.; Jessie Clyde Dykes Peck '42, Ozark; Mr. and Mrs. Mays E. Montgomery (Ruby Braly '41) '42, Huntsville.

Col. Jesse L. Jordan, Jr., '42 is now with Mobile College in Mobile.

Harold B. Thornhill '41, received the Southern Nurseryman's Association's highest award for service during the group's convention in Atlanta in August. The Slater With Memorial Award came to Mr. Thornhill in recognition of his contribution to the association's activities. Mr. Thornhill, of Auburn, has been an assistant county agent in DeKalb, Morgan, and Franklin counties and was horticulture specialist with the Auburn Extension Service from 1961-1971. He was assistant director of the physical plant at Livingston State University for four years and was landscape consultant for Still Waters Development on Lake Martin. He retired in 1975 but maintains his position as executive secretary of the Alabama Nurseryman's Association. He and his wife, Hilda, have two children: Mrs. Stephen Akers of Washington, D.C., and William S. Thornhill of Arnoldsville, Ga.

1943-1945

Luke Johnson '43, is president of the 100 Club of Houston, Tex., which recently presented 40 bullet-proof vests to the Police Department for use by the patrol car officers. The Club is a police support organization.

Dr. Francis J. Mulhern, administrator of APHS, received the American Veterinary Medical Association's Public Service Award on July 12. The award recognized Dr. Mulhern's "outstanding contributions in public health and regulatory veterinary medicine." Dr. Mulhern spent several years on the management team of the joint US-Mexico Foot and Mouth Disease Campaign in Mexico. He directed the program which eradicated Vesicular Exanthema of Swine

PRESENTED WAR EAGLE FEATHER—Coach Ralph (Shug) Jordan (left) admires the War Eagle feather which was presented to Speaker of the Alabama House of Representatives, Joe C. McCorquodale, Jr., at a recent luncheon on the Auburn campus. Mr. McCorquodale was cited for his "loyal and devoted interest to Auburn University and to higher education in Alabama."

Saving Time & Money On Your Will

In this third of a series of articles about estate planning, Dr. Julian Holmes '62 talks about the importance of wills and the preplanning you should do before you get legal assistance in drawing up your will so that you will save your lawyer's time and thus your money.

ALUMNEWS: Dr. Holmes, would you define again for us what a will is and its place in estate planning?

DR. HOLMES: A will is simply a written legal instrument—an expression of a person's wishes—as to the distribution of his property. Let me emphasize again that the will is the heart of the estate plan because no one knows better than you the personal and economic situation and needs of your family and estate.

ALUMNEWS: What kinds of wills are there?

Three Kinds of Wills, But only one Advisable

DR. HOLMES: There are three general types of wills—1. a written, witnessed will which is one in writing with its authenticity vouched for by witnesses; 2. a holographic will, which is wholly written, dated, and signed by the person and its authenticity is generally vouched for by the handwriting of the person. 3. a nuncupative will, which is an oral declaration of the individual about the distribution of his property and usually dependent on oral testimony from other people.

ALUMNEWS: Is one of these wills as good as another?

DR. HOLMES: No. The only type recommended for estate planning is the written, witnessed will drawn by an attorney. Too much is at stake with respect to your family and your estate to not legally insure that your wishes be carried out. Any other approach might result in having the will declared invalid because of legal technicalities.

ALUMNEWS: Is there any way of getting around drawing up a will and still assuring yourself that your property will go where you want it to?

DR. HOLMES: There are other ways of transferring your property but they don't always eliminate the need for a will. Many people, however, mistakenly think so. For instance, people think that when they hold title to jointly-owned property or have invested in life insurance, that this takes the place of a will. In case of joint ownership of property with right of survivorship, it is true that the survivor will take all the property without legal proceedings. But there's always the possibility of simultaneous death such as in an automobile accident. If this happens, by Alabama law, each is presumed to have survived the other and the property is divided in half and then disposed of according to the laws of inheritance which we discussed in the September issue. A will could have provided for such a possibility and have provided for the property as the people wished. And again, there is always some property which is not held jointly, additional real property or

personal property and that property is distributed under state laws of inheritance.

ALUMNEWS: What about life insurance? Isn't that paid to the beneficiary, regardless?

Life Insurance No Substitute for Will

DR. HOLMES: Yes. But again, life insurance is no substitute for a will. It is simply one kind of property. Life insurance proceeds can be made payable to a person and consequently not pass through the will, or it can be made payable to the estate and then the will will govern its distribution—or state law in case of there being no will.

Certain types of property pass through the will and certain types do not. It is important that a person evaluate all property when he is preparing a will because some kinds of property will not pass through the will.

ALUMNEWS: Will you explain what you mean by passing through the will, and what sorts of property you mean here?

Contract Can Supersede Will

DR. HOLMES: O.K. Some property is not subject to disposition by a will, that is it does not pass through the will. Such contractual agreements as joint ownership with right of survivorship, discussed above, is one example where property passes outside the will. Let me explain. Where property is owned by two or more persons in this manner, upon the death of one, the interest in the property is passed to the other joint tenant or tenants. In other words, the deed supersedes the will. As a result, joint tenants do not have an interest which can be disposed of by a will. If two brothers are joint owners with rights of survivorship, the surviving brother takes full ownership. The dead brother's share would not go to his wife and children but to his brother. Other such contractual agreements are those such as life insurance when the proceeds go directly to a beneficiary and pass outside the will.

A good many people hold property in which they are life tenants. That is, they do not own the property, but have a life interest. These people cannot make a will disposing of the property which they hold in a life estate. A common example is when a husband conveys his land to his wife for her life, but upon her death the property passes directly to the children. The wife could not dispose of the property through her will.

ALUMNEWS: Can anybody make a will?

DR. HOLMES: There is no natural or common law right to make a will—but it is established by state law which varies of course from state to state. The many alumni who live outside

Alabama will want to refer to their own state laws; however, there is a minimum (but no maximum) age limit of 19 years on the person who can make a will. A person must be of sound mind when the will is drawn. That means that the person must recognize that he is making a will and understand what he is doing and the effect it will have. He must realize the nature of his property and recognize the natural objects of his bounty—that is his wife and children, etc.

Let me emphasize that women can draw up wills. I have been surprised at how many times at meetings when I've been talking about wills that women have asked if they can make a will. Women have all rights that men have in making wills.

Man Cannot Leave Wife Out of Estate

DR. HOLMES: In general you have a great deal of freedom in how you can dispose of your property in your will, but there are some restrictions. The most significant is with respect to the marital rights of the surviving spouse—the dower rights for the woman and the curtesy rights for the men. In Alabama, for example, a man cannot leave his wife out of his estate. She has a legal interest or dower right in her husband's real property. Curtesy of the husband in his wife's real property, however, has been abolished in Alabama.

Another restriction with regard to the distribution of property is that it must be consistent with public policy. That is, you are not permitted to do after death what you couldn't do while alive. For example, you can't set up your will to promote illegal or immoral acts. Neither can you make a bequest to a named beneficiary conditional on the fact that he or she remain unmarried or obtain a divorce.

In some states there are laws restricting the amount of property that can go to charitable institutions, but not in Alabama. There are absolutely no restrictions from a federal estate and gift tax standpoint. A person has complete freedom to make gifts to religious and charitable institutions.

ALUMNEWS: How do you go about drawing up a will?

DR. HOLMES: Drawing up a will is extremely personal and only you can decide what you want to do with your property. Basically there are four important steps you need to take in drawing up a will.

Steps in Drawing Up Will

First, you need to decide what you want to do with your will. What are your objectives for making it? What do you want to happen to your property after your death?

The second step, which can be one of your most important decisions, is to select someone to settle your affairs and ad-

minister your estate. This person—an executor or an executrix—is extremely important. He or she must function under the restraints of the law and the will. In selecting an executor you will want to consider the person's common sense, his impartiality, and his technical and financial skills. You will want to consider the person's probable life duration. You want someone who will survive you, and this is one place where banks and other institutions have an advantage over an individual because they provide continuity.

Make List of All Real & Personal Property

The third step you want to take in preparing to draw your will is to prepare the information needed in drawing up the will and deciding who will get its benefits. To do this, you will need a list of all your real and personal property. If you wish to leave specific items to individuals, you will need to clearly identify the property and individuals. For instance, if you have always intended that your eldest daughter receive grandmother's bureau which came over with the family from Europe, you will want to specify that in your will. Then you will need a description of how your property is owned, either individually or jointly. You will want to include an explanation of what transfer provisions already exist and any lifetime gifts you have made or are in the process of making. You will need details of your financial situation, particularly any indebtedness against your property. (This is very important if you have potential federal estate and gift tax problems.) You will need a list of your family including names, ages, and addresses of your husband or wife and children. You will also need a list of your beneficiaries, including your spouse and children as well as others. You will need to include addresses of beneficiaries and complete descriptions of what you want each to have. If any of your beneficiaries are minors or under legal disability, you will need the name and address of any guardian, you have selected. You should also include an alternate guardian because if the named guardian can't or won't serve, then the court must appoint a substitute. You also need the name and address of the person or institution you have selected to be your executor as well as an alternate.

The fourth important step is to obtain professional counsel to insure that your will be legal. The will is too important to the well being of your family and your property to do otherwise.

Store Will in safe, Accessible Place

ALUMNEWS: Once the will is prepared by your lawyer, where should it be kept?

DR. HOLMES: You should

store the will in a safe but accessible place. The accessibility is important. You may want to keep the original in your safe or in a safety deposit box or leave it with your banker, lawyer, or executor, and keep a copy at home. Wherever you leave it, be sure to inform your family or executor of the location. You may want to check your state's laws before you leave your will in a safety deposit box because some states seal such boxes at death until they are opened by the court. However, in Alabama this has not been a major problem in the settlement of estates.

ALUMNEWS: How about changing your will—if you want or need to make changes in your will after it is drawn up, can you?

DR. HOLMES: Certainly. Many people think that once the will is drawn up the job is finished, but that can be the worst possible attitude—a will is a living document and should reflect any changes in the family and in the philosophy or value system of the person drawing it up as well as in the economic condition of the estate.

Make Changes With Lawyer's Advice

ALUMNEWS: Should a person just write on the will or mark out portions he wishes to change.

DR. HOLMES: No! Absolutely not. If you want to insure that your will remains valid you should make any changes with the help of your lawyer to make sure the will complies with the law.

ALUMNEWS: When should a person update his will?

Keep Will up-to-Date

DR. HOLMES: Reasons you might need to update your will would be a change in beneficiaries—because of deaths, marriages, divorce, or births of an additional child; change in property—you bought additional property which needs to be covered by the will; change in state inheritance laws; you sell your home and buy another; an executor refuses to serve or moves away.

If you need to change your will, you can change it in whole or in part. If there are only a few changes, a codicil may be drawn which supplements your will. If you wish to make many changes, however, it is advisable to draw a new will which cancels the old one.

This series of articles is to provide alumni with continuing education in the area of estate planning as a part of the Alumni and Development Office effort to serve alumni and friends of Auburn in any way possible. Dr. Holmes welcomes any questions you have about estate planning or about how the Alumni and Development Office can help as you develop your own estate plan. You can write him at the Alumni Office, Union Building, Auburn, Alabama 36830.

AUBURN ALUMNALITIES— Continued

from the U.S. He was responsible for establishing the nationwide hog cholera eradication program and was the first veterinarian to become administrator of a major USDA agency.

NEW ADDRESSES: Robert E. Colvin '43, Villa Rica, Ga.; William H. Yancey '43, Annapolis, Md.; Clinton N. Kaminis '43, Cottondale; William S. Byers '44, Prestonburg, Ky.; Harry Jenks '45, Jacksonville, Fla.

1946

Sid McDonald, an Alabama state senator, attended a conference of the Education Commission of the States in New York City in June.

Mr. and Mrs. M. Leroy Spearman (Lilibel Carlovitz '46) live in Newport News, Va., where Mr. Spearman has been with NASA for 33 years. He is currently chief scientist for military and foreign technology, High-Speed Aerodynamics Division.

Kenneth H. Thomas is president and owner of Ken Thomas Volkswagen-Honda-Winnebago and Ken Thomas Datsun in Columbus, Ga. He is married to Louise Brooks '43 who manages the offices of both businesses. They have two sons and a daughter. Their daughter, Helen Melissa Thomas Roberts, III, is an officer with the First National Bank of Columbus,

Ga.. On August 13, she was installed as the first woman president of the Columbus Auburn Club.

1947

Lt. Col. and Mrs. Swift Tarbell, Jr., live in Birmingham and travel a lot in their Airstream. Their son has a law practice in Bangor, Maine, and is a member of the Maine Legislature.

NEW ADDRESSES: Bruce Jones, Birmingham; Rolland H. Mann, Sr., E. Tallassee; Lester E. Gunter, Andalusia; Virginia Powers Alexander, Knoxville, Tenn.

1948

Mr. and Mrs. Sam W. Main (Zelda Sellers '47) own and operate Main Realty, specializing in commercial real estate, in Corpus Christi, Tex. Sam is vice president of the Corpus Christi Board of Realtors.

1949

Dr. William D. Mayfield retired from APHIS USDA MPI on August 1, 1976, as a veterinary medical officer. He now lives at Travelers Rest, S.C.

Mr. and Mrs. William S. Bishop

live in Kinston, N.C., where he is senior process engineer with E.I. DuPont Textile Fibers Department.

Fred Carley, Sr., the first person to hold a track scholarship from Auburn, was back on campus in July to see his son, Fred, 13, set a national record in the mile run and a regional mark in the 880 and his daughter, Candy, 10, set a record in the racewalk. The two were competing in the Region Three Junior Olympics Track Meet held at Auburn. The youngsters and their father live in Niceville, Fla.

NEW ADDRESSES: Robert V. Flanagan, Rome, Italy; Charles A. Thompson, Jr., Cypress, Calif.; Mortimer M. Wood, Atlanta; Fred J. Cornelison, Uriah; Harris R. Hill, Ft. Bragg, N.C.; Walter N. Howell, Newport News, Va.

1950

William B. Fleming has been promoted to major general. He lives in Springfield, Va.

Elvis L. Morrow has retired after 34 years of teaching. He was Chambers County Superintendent of Education at the time of his retirement.

Mr. and Mrs. Arnold Fagen, Jr., (Emaleen Stoves) live in Sapele, Nigeria, West Africa where they are associated with West African Shrimp Ltd.

NEW ADDRESSES: James J.

Blue, Jr., Chicago; Archie Vineyard Osborn (Mrs. Robert) lives in Florence.

1951

Frances Ann Traylor McGuire (Mrs. B.A.) has recently moved to Visalia, Calif., where her husband is western sales manager for Peerless Mfg. Co. They have one son, Phillip, who is a freshman at the College of the Sequoias in Visalia.

Dr. Bobbye A. Chancellor of Veterinary Services in Meridian, Miss., has been unanimously elected vice president of the American Veterinary Medical Association. She is the first woman to hold a major office in the AVMA and was nominated by the Mississippi State Veterinary Medical Association. Dr. Chancellor practiced for 15 years before joining the Meat and Poultry Inspection Service of the USDA in 1967. In 1976 she transferred to Veterinary Services where she is a supervisory veterinary medical officer in charge of all VS activities in five counties.

Mr. and Mrs. D. Fred Hodges live in Moline, Ill., where Fred works at the Rock Island Arsenal and Sue '54 teaches third grade. Their daughter Suzanne is a junior at Moline High School.

Mr. and Mrs. Frank P. Barrow, Jr., (Ouida Parker) live in Houston, Tex., where Frank was

recently named general manager of the Minerals Division of Exxon, USA.

Clifford S. Smith is superintendent of education for the Phenix City (Ala.) Schools.

Mary Evelyn Chunn is now Mrs. William Johnson. She lives in Holt, Fla.

John Elbert O'Cain is now chief of the Loan Services Branch of the Grain, Oilseeds, and Cotton Division in the Washington office of the Agricultural Stabilization & Conservation Service of the U.S. Department of Agriculture. He lives in Alexandria, Va.

NEW ADDRESSES: Robert G. Anderson, Andalusia; Mr. and Mrs. Frank H. Strozier (Mary Ellen Stammer), Long Beach, Calif.; James W. Bragg, Jr., Huntsville.

1952

Mr. and Mrs. Thomas A. Smith (Catherine Deaver '50) live in Birmingham where Tom has been transferred as branch manager for Sperry-Univac. Their son Tommy recently graduated from the University of Alabama and is now in graduate school at Auburn with an assistantship in counseling. Their daughter Carol is a freshman at Auburn. Her twin, Claire, is a freshman at the University of Alabama.

L. Cody Edwards of Owensboro, Ky., received a Master of Business Administration from Murray State University on August 5. He is chief field service engineer for National-Southwire Aluminum Co. NSA is jointly owned by National Steel Corp. and Southwire of Carrollton, Ga.

Grover Peebles would like to locate a 1952 *Glomerata*. If you know of one that is available, write him at 616 Glen Ridge Dr., Fairfield, Ala., 35064.

NEW ADDRESSES: William L. Dean, Sylacauga; Earle B. Rodwell, Jr., Shalimar, Fla.; William T. Tate, Mobile.

Mr. and Mrs. David D. Sander-son, Jr., (Virginia Rogers '53) live in Nashville, Tenn., where David is with Nationwide Surety Systems as Southeastern regional sales manager. Virginia is a property manager with Harvey Freeman & Sons, Inc.

1953

Col. Douglas L. Hutchens has completed a tour as chief procurement Electronics Command at Ft. Monmouth, N.J., and is now chief procurement USA Forces Command, at Ft. McPhearson (Atlanta), Ga.

J. Denison Ray is now executive director of Legal Services of North Carolina, Inc. He administers the legal services program for the state of North Carolina to expand the legal services offices across the state.

James W. Hosch, III, teaches special education at Appalachian State University in Boone, N.C.

NEW ADDRESSES: Col. John E. Ramsey, Englewood, Colo.; Jack L. Gaylord, Columbia, S.C.; Alva L. Lasitter, Dallas, Tex.; Lt. Col. Joel R. Smith, Wichita, Kan.

1954

Dr. Emmett E. Houeye, Jr., operates Acadiana Veterinary Clinic in Lafayette, La.

CLASS OF '52—Gathering for their class picture on the steps of Langdon Hall were these members of the Class of 1952, Row 1, left to right: Leo Creest of Clanton, Joseph E. Remembering The Championship Season—

Heaven: To Be a Kid in Auburn in 1957

By Owen Davis
(Reprinted from *The Auburn Bulletin*)

There may never have been a better time and better place to be a kid than Auburn in 1957. That year, the best thing imaginable happened: Auburn went undefeated and was voted the No. 1 college football team in America.

EDITOR'S NOTE: Owen Davis was nine years old in 1957 when the Auburn football team was named Number 1 in the Nation. The recent 20 year reunion of that team spurred him to write this special reminiscence.

College football champions are not unusual; there is one every season. But there was something special about Auburn in 1957 that probably has not been shared by other towns in other times.

Before 1957, most college champions were teams with national reputations—Oklahoma, Notre Dame, Ohio State, Army, and Michigan. Auburn was obscure in comparison. Earlier champions typically were located near large cities where there were plenty of other concerns besides college football.

For those of us who grew up in Auburn in the 1950s, the world revolved around college athletics, period. There were no distractions—no wars, no

protests, no economic uncertainty. Television was relatively new and only a minor influence.

It was still a big deal to go to Columbus, Ga., and ride the escalator at Kirven's.

Auburn excelled in most sports, led by memorable coaches—Shug Jordan in football, Joel Eaves in basketball, Wilbur Hutsell in track, Dick McGowan in baseball, Swede Umbach in wrestling.

They were, and are, admirable men, and they produced admirable teams.

But above all, the one thing that mattered most was Auburn football, the game our fathers passed on to us before we could read.

We went to practices at Drake Field, pep rallies, the Wreck Tech parade, and every game within a reasonable automobile or train trip. I think I went to my first Georgia Tech game in Atlanta in 1953 when I was five years old. In 1957, I saw seven games (missing trips to Knoxville, Houston, and Tallahassee).

Other kids were more involved than I was, guys like Pee Wee Jordan (the coach's son), Mike Shannon, Buzzy

Bradberry, Sonny Harwell, and Frank Jenkins. I envied Frank Jenkins, the team mascot who went everywhere the team did.

Here we were, stuck away in a small town in eastern Alabama, hundreds of miles from the big cities, and in 1957, we had the best college football team in the country.

See Heroes Down at Drugstore After Practice

Our heroes were right down there on College Street at a drug store soda fountain after a hot practice: Red Phillips, Zeke Smith, Tommy Lorino, Jackie Burkett, Lloyd Nix, and all the rest. We felt part of them. They were part of us.

At that time, I thought kids like me were just as much a part of Auburn football as the left tackle. When the football team got crewcuts and flattops, so did we. I still think the small town intimacy of Auburn bred a spirit that remains unique.

In 1957, I figured everybody knew about Auburn. In my mind, there was Auburn and its football—and then there was the rest of the world somewhere out there watching us. It came as a shock years later when I discovered there were people who had never heard of the place.

By itself, 1957 was a unique season. The Plainsmen may have had better talent in other

years (1954, for instance), but 1957 was the only season we had proof we were the best in the land.

The distinctive trait of the '57 team was defense. Auburn gave up only 28 points all year, none on the ground. Can you imagine shutting out Tennessee, Kentucky, Georgia Tech, Florida, Georgia, and Alabama in one season?

Auburn did that in 1957. When opponents moved the ball inside Auburn's 10-yard line, it was little cause for concern. We expected the Tigers to stop them. They almost always did. It was nothing unusual for Kentucky, say, to have first-and-goal at the Auburn five, and wind up at the seven yard line on fourth down.

Hal Herring, the defensive coach, was considered an absolute genius. I can remember one amazed alumnus talking about Herring on the train ride back from Atlanta after Auburn beat Tech 3-0. The alumnus marveled: "That Herring can remember what his ends, Phillips and Wilson, did on every play! He doesn't even watch the ball!"

And what a defensive line Auburn had: Red Phillips and Jerry Wilson at ends, Ben Preston, James Warren, and Cleve Wester at tackles, Tim Baker and Zeke Smith at guards, Jackie Burkett and Billy Atkins (a fullback on offense)

at linebackers. Two of Auburn's best offensive backs, Lloyd Nix and Tommy Lorino, were also outstanding defensive backs.

Auburn led the nation in total defense, rushing defense and scoring defense that year. Defense was a trademark of Shug Jordan's best teams, and to this day, I don't think much of a team that can't play real tough defense. Jordan's influence will live on for a long time.

Those same defensive players in 1957 also played offense, since those were the two-platoon days. Even though Auburn lacked a powerful attack (averaging 20.7 points a game), an offensive star became my favorite hero: Tommy Lorino.

Lorino, a 165-pound half-back from Bessemer, had the best moves I've ever seen on a football field. His quickness and cutting ability were exceptional. I would do anything then just to get near him, to look at him, to imagine myself running through defenders at Cliff Hare Stadium as he did.

The summer after the '57 season, Joel McDavid and I ran a classified ad in *The Bulletin* for a football school we were operating in our backyards. The ad read: "Learn Tommy Lorino tricks." At a nickel an hour, we had a steady clientele for several weeks.

Along with Lorino in the

(Continued on page 9)

Auburn in Fall '57

(Continued from page 8)

backfield were Nix, Atkins, and Bobby Hoppe, who was as fast as Lorino was quick. Atkins was a tough insiderunner. My father yelled during a run in the Florida game: "That Atkins runs like a wild bull!"

Nix, a converted right half-back, didn't throw much, but he was an effective runner and passer. To me, the most distinctive thing about Nix was his hometown: Kansas, Ala.

When Nix threw, he mainly went to Phillips, the best two-way end Auburn ever had. Phillips was married to a striking majorette, whom I had a crush on.

The '57 season started with Tennessee at Knoxville, and I didn't go. Jack Marshall and I listened to the game on the radio at his parents' boarding house on West Magnolia Avenue. It was a gray, drizzly day in Auburn and raining at Knoxville. We won 7-0 and that produced a pep rally at Toomer's Corner.

Cheerleaders who didn't make the trip led cheers in Auburn as thousands crowded around a wooden ticket booth that used to sit by the main gate. Jack and I climbed up on the booth and led a couple of cheers ourselves.

'Heck, It Was Our Team, Too'

Heck, it was our team, too. Auburn kids were like that.

Next came a 40-7 rout of Chattanooga and then a controversial 6-0 win over Kentucky here. First, Kentucky All-American Lou Michaels tried to take Lorino's head off on a run down the right sideline. That cost the Wildcats a 15-yard penalty for unnecessary roughness.

Gene Lorendo says Michaels was mad about that penalty years later. After the penalty, Atkins scored on a play that Kentucky coach Blanton Collier said was illegal. Collier claimed Phillips pulled Atkins over the goal. It still counted.

Georgia Tech, Auburn's No. 1 rival at the time, was next. The Yellow Jackets were the premier team in the south in the early 1950s and Auburn had beaten them only once since 1940. It didn't help that Auburn had to play at Atlanta every year. Auburn people vowed they got cheated by Grant Field officials.

Adding to the emotion was the Wreck Tech parade on Wednesday, winding up with a pep rally at the stadium. Jordan would always call over two players from adjacent Drake Field to appear at the rally (Phillips was one of them in '57). Shivers ran up my spine as Jordan ended the pep rally vowing: "We're going up to Atlanta Saturday to beat the hell outa Georgia Tech!"

Riding Train to Tech Game What Living All About in 1950s

The best way to go to the Tech game then was on the chartered train Saturday morning. The

team rode in the rear cars. Riding the train to a Tech game was what living was all about in the 1950s. Hundreds of fans gathered to hoot and holler and tell stories in the best Auburn tradition.

The minute we hit the Atlanta depot, shouts of "War Eagle" boomed through that concrete palace. My family always went to the Georgian Terrace Hotel for our pre-game meal and then walked to Grant Field.

Atkins Kicked Only Field Goal of His Career to Wreck Tech, 3-0

In 1957, Atkins kicked the only field goal of his career and Auburn wrecked Tech 3-0.

Returning from the game on the train, players meandered through the cars, talking to friends and alumni. I waited anxiously to speak to every player who passed by. On the '57 train, I even shook hands with Zeke Smith, the sophomore guard from Uniontown!

A 48-7 win over Houston followed the Tech game, then a 13-0 win over Florida. Next came a tough 15-7 victory over Mississippi State in which a safety caused by reserve end John Whatley was a key play.

Auburn beat Georgia 6-0 at Columbus the following week, but some Georgia followers claimed a moral victory. One Bulldog fan drove from the stadium holding out a peanut from his car window yelling, "Anybody want a peanut for the Tigers?" I didn't understand the put-down. His team had just lost.

Florida State was a 29-7 victim at Tallahassee before the season ended with Alabama. Auburn won 40-0, the soundest whipping the Tigers have ever given the Crimson Tide. The day was cold and windy, and Auburn won the coin toss and took the wind.

Beat Alabama 40-0

Alabama fumbled on its third play from scrimmage and the rout was on. Lorino ran 25 yards around right end for a touchdown on Auburn's first play and later returned an intercepted pass 79 yards for a TD.

Burkett ran an interception back 66 yards for another score, and Jordan claimed later he yelled at his players not to block for Burkett. Burkett was 6-4, 215 pounds, but Jordan knew he could probably outrun anybody on the field. He may have been Auburn's fastest lineman ever.

The Monday after the Alabama game, results of the Associated Press poll came out and Auburn easily was voted No. 1 in the nation. All hell broke loose. Students started a spontaneous pep rally at Ross Square and the cheering continued on into the night.

We went to a pep rally at the Student Activities Building that

night and the place exploded. It was the first time I ever yelled, "We're No. 1!" It's a trite cheer now. That night, it meant something.

That Night Chant 'We're No. 1' Meant Something

The cheering spread downtown to Toomer's Corner, then out to Jordan's house two different times. Students wanted a holiday. They painted buses, rocked cars and screamed themselves hoarse. My father did one of the quickest turnarounds of his life when several hundred students approached our car on South College Street near the president's mansion. I thought they might turn us over.

The Associated Press trophy presentation was held the following Tuesday at the stadium and there also was a parade. School was let out so we could attend. Several of us kids sat on the front row in our Rat Caps, right in front of the speaker's stand.

All the players were there, dressed in suits, and about 10,000 fans came to watch. Jordan sat down in a chair before the ceremony started and I yelled at him. He waved back.

I could have died right there and been happy.

BOWL OF HYGEIA—James Allen Main '68, left, Anniston pharmacist and lawyer, receives the A. H. Robins "Bowl of Hygeia" Award from T. E. Lillard, manager of the south central division of the drug firm. Each year the state pharmaceutical association chooses a state pharmacist for the award, given for outstanding community service.

AUBURN ALUMNALITIES—Continued

Mr. and Mrs. John R. Drescher (Lynn Fillmer) recently graduated two sons from Auburn, James and John, and their daughter Louann is enrolled in business at Auburn.

Joe F. Hildreth is vice president and trust officer of the First Tennessee Bank N.A. of Chattanooga, Tenn.

NEW ADDRESSES: James A. Matthews, Somerville; James R. Anderson, Troy; Mrs. Glenda H. Cummings, LaGrange, Ga.; Lt. Col. John Arnold, Whiteman AFB, Mo.

1955

Virginia Young Wood is a beauty consultant for Mary Kay Cosmetics, Inc., in Nashville, Tenn.

Mr. and Mrs. Richard M. Runyun (Sally Wright '60) recently moved to Ashland, Ala., from Thomaston, Ga.

Lt. Col. Emmett K. Taylor is now stationed at Brevard, N.C.

1956

James B. Spence retired from the Air Force on May 1 and writes that he is now "back living on the farm" in LaFayette.

Charles McDade is manager of maintenance for the Contemporary, Polynesian, and Golf Resort Hotels at Walt Disney World in Orlando, Fla. He and his wife have three children, ages 16, 14, and 12. They have lived in Orlando for the past 14 years. Before joining WDW, Mr. McDade worked at Kennedy Space Center during the Apollo Moon Launch Program.

Jackie Watkins (Mrs. Don R.) of Salinas, Calif., was recently installed as president of the Monterey County Legal Secretaries Association. She has held other offices in

the Association and is active in the Northern California Auburn Alumni Club. She and her husband, Don, have three potential Auburnites—Kim, 17; Kathy, 15; and Keith, 11.

Mr. and Mrs. Albert W. Brame '55 (Frances Eppes '56) live in Goldsboro, N.C. Al retired from the Air Force in December, 1976, and is now the comptroller for Dewey Brothers in Goldsboro.

James H. Estes is county-agent-coordinator of the Dale County Extension Service. He had been with the staff since 1963 and in his new position will coordinate activities as well as continuing with responsibilities in field crops, pesticide use, beef cattle, and community club.

Henry Samuel Taylor of Carlisle Barracks, Pa., received the M.S. in public administration from Shippensburg State College on August 5.

NEW ADDRESSES: George W. Heard, Fitchville, Conn.; James A. Lindsey, West Point, Ga.; Lt. Col. William K. Bedsole, Enterprise; L. Ricardo Price, Norton, Ohio; Theodore Warnke, Cullman; Robert L. Kunode, Raleigh, N.C.; Carl P. Williamson, Knoxville, Tenn.; William H. Moore, Brownsville, Tex.

1957

Robert S. Dundan is president and chief of operations of First Magnolia Federal Savings and Loan Association in Hattiesburg, Miss. He joined First Magnolia Federal in 1968 and became executive vice president in 1972. He worked with Peat, Marwick, Mitchell & Co., a national CPA firm from 1959 to 1968. Mr. Duncan is president of the Hattiesburg Kiwanis Club and has been a director of the Forrest County Industrial Board, the Hattiesburg Area

Chamber of Commerce, and the United Givers Fund.

Ronald P. (Pat) Johnson is a pilot for Continental Airlines. He, his wife, Barbara, and daughter, JoAnn, recently moved to Cold-spring, Tex., on Lake Livingston, north of Houston.

Classmates of R.P. Fullerberry '57 who know his current whereabouts are asked to inform him that Ed Plack of 220 Hulme St., Burlington, N.J. 08016, has found his classring.

James T. Hamn, Jr., is with Alpha Lumber Inc., in Birmingham.

George W. (Buddy) Whitlock, Jr., has been promoted to forest supervisor for the Rio Grande National Forest in Colorado, with headquarters in Monte Vista. This is Buddy's 20th year with the U.S. Forest Service. He and his family live in Alamosa.

NEW ADDRESSES: Maj. Joseph R. Pearce, Montgomery; Carl E. Wideberg, II, Bethel Park, Pa.; William S. Brown, Lincoln-ton, N.C.; Kenneth W. Tidwell, Knoxville, Tenn.; Gerald L. Hackler, North Little Rock, Ark.; Bill Barnett, San Diego, Calif.; Neal O. Terry, Pensacola, Fla.; Richard L. Shobe, Santa Barbara, Calif.; Charles R. Henter, Cherry Hill, N.J.; Bruce C. Hodges, Long Beach, Miss.

1958

J.C. Hollis is state supervisor of agribusiness education.

Mr. and Mrs. Thomas B. Brantley (Martha Collier '63) live in Rochester, N.Y. In July, 1976, Martha became owner-manager of HomeCall of Rochester, a company that does non-medical services for the elderly.

Melvin A. Bailey is customer

(Continued on Page 10)

NORTHEAST MISSISSIPPI—Alumni in Northeast Mississippi met on August 11 in West Point. Among those on hand were from left, John C. Hall '53, a member of the board of directors of the group; Dr. Williams H. McMahan, Jr., '59, president of the club;

Golda McDaniel '72, secretary; Coach Larry Blakeney from Auburn; Linda Finney Wilcox '71, director; Tommy Lambert from the Alumni Office and Cliff Bice '58, director.

AUBURN ALUMNALITIES—Continued

service manager for the Central District of Alabama operation of Continental Telephone of the South. He and his wife, Kathleen, live in Pell City.

Audrey Ann Knapp Sitten has been honored by the Fort Lee, Va., Unit of the American Red Cross for her work as unit chairman during the past 15 months. She received the Clara Barton Medal, the highest award given by the American Red Cross. She is serving a three year term on the Board of Governors of the Southside Chapter of the Red Cross in Petersburg, Va., where she will be chairman of the Committee for Service to Military Families and Veterans. Mrs. Sitten and her daughters—Cathy-Jo, 17, and Robin, 13—live in Petersburg. Her husband, Lt. Col. **John R. Sitten, Jr.**, is the logistics officer on a joint task operation to clean up Enewetak Atoll of the Marshall Islands.

Dr. Lynwood Barber received a Ph.D. from Cornell University in 1969. Continuing his veterinary medical research career with the U.S. Department of Agriculture, he recently accepted a 1-year assignment at the University of California/Davis to do research on an improved vaccine for bluetongue disease.

Robert A. Terrell has been promoted to vice president-manager, Albertville area, Central Bank of Alabama, N.A. He worked in the Huntsville and Decatur offices before transferring to Albertville in 1972. Mr. Terrell is married to **Mary Etta Van Devender '60**. He is past president of the Albertville Civitan Club, the Downtown Action Association, and the Sand Mountain Tennis Association and president of the West End Elementary School PTA.

Cdr. and Mrs. Henry A. Holmes (Deloris Arnette '59) live in Honolulu, Hi., where he is deputy officer in charge of construction Mid-Pacific. They have been in Hawaii with the Navy since July, 1975 and expect to remain there until 1979.

Sylvia A. Holladay is in the first class of teachers to complete an experimental program of graduate work for community and two-year

college instructors at Carnegie-Mellon University. She is with the Department of English at St. Petersburg Jr. College in St. Petersburg, Fla. The certification program is a step toward the Doctor of Arts.

Bob Sumners has been promoted to director of purchasing and central stores at Berry College and Academy in Rome, Ga. He recently earned the designation of Certified Purchasing Manager from the National Association of Purchasing Managers. Before joining the Berry staff eight years ago, Mr. Sumners was with Georgia State and Goodyear Tire and Rubber Co. He and his wife, Ann, have two children: Mark, 10, and Robin, 9.

George A. Adams is a captain with the U.S. Public Health Service, FDA, and lives in Roanoke, Va. Since graduating from Auburn, he earned an M.S. from the University of Tennessee in food technology. In the near future he plans to do graduate study in epidemiology.

NEW ADDRESSES: Lt. Col. **Mark S. Sowell, Jr.**, Daphne; **Bryan C. Goode, Jr.**, Northbrook, Ill.; **Dwain Cox, Remlap**, Gerald M. Eisenlohr, Winston-Salem, N.C.; **George D. Mitchell**, Acton, Mass.; **Cdr. Richard E. Slye**, McLean, Va.; **Cecil G. Hefner, Jr.**, Phoenix, Ariz.; **Harold O. Gregg**, Randolph; Mr. and Mrs. **Ben F. Jordan** (Barbara Jane Roy '55), Mobile; **Paul J. Williams**, Elon College, N.C.; **Wilton O. Garrett**, Jonesboro; **Reginald Harp**, Birmingham; **Jack M. Rowland**, Corinth, Miss.

1959

Barbara Tamblyn Clapp is a library assistant at a local junior high in Houston, Tex. Her husband, Franklin, is in nuclear quality assurance with Chicago Bridge and Iron Co. in Houston. Their daughters, Sharon and Judi, are both in high school.

Mr. and Mrs. **R. Larry Culver** (Elaine Gibson '62) live in Houston, Tex., where he has been transferred as secretary and treasurer of Sepco Metallic Gasket

Co., a subsidiary of Sepco Corp. of Pelham. The Culvers have two children: Brian, 15, and Leticia, 12.

Lt. Col. John K. Arnold recently graduated from the National War College in Washington, D.C. He is commander of the 509th Strategic Missile Squadron at Whiteman AFB, Mo. He is married to **Louise McGinn**.

Robert W. (Rob) Collins is senior vice president and head of the Office Leasing Division of Henry S. Miller Co., Realtors, in Dallas, Tex. After receiving a law degree from the University of Mississippi, Mr. Collins joined the realty company. The company is the largest Texas-based brokerage and management firm in the Southwest. It has offices in Fort Worth, Houston, San Antonio, and Austin and international offices in Paris and Frankfurt.

Ray Scott, founder and president of the Bass Anglers Sportsman Society, has been recognized by the Outdoor Writers Association of America for his part in the bass fishing boom.

Jerry M. Bryant is a consultant to the Energy Management Board and will be representing the state of Alabama and the Federal Energy Administration at the local government level. He and his wife live in Montgomery.

NEW ADDRESSES: **Harry W. Bradfield**, Gadsden; **Robert C. MaWhinney**, Half Moon Bay, Calif.; **Louis H. Pruitt**, W. Bethesda, Md.; **Daniel W. Shackelford**, Titusville, Fla.; **Col. Emil E. Kluever**, Las Vegas, Nev.; **O. David Taunton**, Birmingham; **Frank B. Williams**, Wichita, Kan.; **Ronnie C. Goodwin**, Humble, Tex.; **Joe R. Kaple, Jr.**, Albertville; **Paul Hemphill**, Atlanta.

1960

Dr. Marjorie C. Kirkland of Newville has been selected as Alabama's Woman of Achievement for 1976-77 by the Alabama Federation of Business and Professional Women's Clubs, Inc. Dr. Kirkland is chairman of the Department of

(Continued in Col. 4)

ALUMNALITIES—Continued

1961

Counseling and Psychology at Troy State University in Dothan and Fort Rucker. She is involved with many professional and civic organizations such as the Southeast Alabama Youth Services Board, the Wiregrass Mental Health Board and the Alabama Task Force on Female Alcoholism. She has been named to Who's Who in Alabama and 2,000 Women of Achievement. Dr. Kirkland received the BPW award for her efforts toward cooperation in public service, in helping elevate standards for women in business, and for extending opportunities for women through education in science, literature, and the arts.

Henry Stern became manager of the Opelika Chamber of Commerce on July 1. He was involved in real estate sales and development with White Realty, Inc., before being named to the Chamber post, and for 11 years owned and operated the Hollingsworth Norman and Stern men's clothing store in Opelika. His wife **Rosalyn '60** and he have two children—Ginger and Jay.

Ray Atkins has been promoted to Southern Regional Sales manager-Borden Foods Division. In his new capacity, Mr. Atkins is responsible for all southern marketing of Borden's products under the name of BAMA, Cracker Jack, Wyler, Campfire, and Flavor House Nuts. Mr. Atkins is one of four sales managers for Borden Foods nationwide.

Ivy Mauk Berman is anchorwoman for Montgomery's WSFA-TV noon news program. After teaching at Cloverdale Junior High School, she began her broadcast career as an intern at Channel 32 in Montgomery where she hosted an interview show and covered news assignments. She became the first woman on the WSFA news team in 1972. Her work at WSFA begins at 6:30 each morning when she prepares cuts for the state news slot on NBC's Today show. Then she selects stories and assembles visuals for the 12:00 news. Ivy has a son, Knight, 15, and a daughter, Victoria, 13. She is a member of Toastmasters, American Women in Radio and Television, Montgomery Shakespeare Players, and Landmarks, a historical organization.

Bolling P. Starke, president of the Bolling P. Starke Insurance Agency in Montgomery, has been elected to the board of directors of Southern Bank, NA, an affiliate of Southern Bancorporation.

CDR. Wallace T. LeSuer is executive officer of fleet composite squadron two based at NAS Oceana, Va. He will become commanding officer in July, 1978.

Rudy Paul Yates of Linden, Extension Service county agent in Marengo County for the past 17 years, became county agent-coordinator for Jefferson County on Sept. 1. At the time of his promotion and transfer, Mr. Yates was county agent for agriculture and natural resources. He holds an M.S. in agriculture from Auburn and has received a number of awards for outstanding service in Extension work. In 1973 he was national winner in the New Holland Career Guidance Award program and in 1975 was a winner in the Public Information award program sponsored by the county agents' association. He and his wife, Martha Jane, have four children: Marcia and Kay, who are students at Montevallo; Valeria, a high school senior; and Paul, a seventh grade student.

Frank H. Wood of Guntersville has been appointed county agent-coordinator for Marshall County. He had been associate county agent for agriculture and natural resources before he was promoted. Mr. Wood will continue his educational responsibilities in dairying, soybeans, swine, grain, and pest and resource management. He holds an M.S. from Auburn in agriculture and has worked with Extension in Montgomery and Marshall Counties. He received a Distinguished Service Award from the National Association of County Agricultural Agents in 1976. He and his wife, Harriette, have a daughter, Cindy, 8, and a son, Russ, 2 months.

Robert J. (Ted) McInnish has been named assistant manager of WestPoint-Pepperell's Lanett (Ala.) Mill. He has been with the company in a number of management and engineering capacities since 1963.

Faces in the News

Riley

Long

Charles E. Riley '55 has been named director of the Advanced Systems Development and Manufacturing Technology Directorate, a major organization within the U.S. Missile Research and Development Command. He worked as a project engineer at Wolverine Tube Division in Decatur from 1955 to 1957. He then joined the Army Ballistic Missile Agency as a supervisory aeronautical research engineer and worked at the Navigational Branch of the Guidance and Control Lab until 1961. Mr. Riley was named chief of the Prototype Development Group in the Guidance and Control Directorate of the U.S. Army Missile Research, Development and Engineering Lab in 1961, and held that position until he was promoted to director of the Advanced Systems Development and Manufacturing Technology Directorate in January. Mr. Riley received an MS in Engineering Management from Vanderbilt University in 1970. He is a member of a number of professional organizations such as the Defense Preparedness Association, the International Society for Hybrid Micro-electronics and the American Institute of Aeronautics and Astronautics. He is a member of Tau Beta Phi National Engineering Honor Society and has received a number of meritorious and outstanding performance awards.

Evans Davis Long '33 retired January 1 as senior vice president with thirty-nine and a half years of service with Alabama Power. Mr. Long was employed with Birmingham Electric Co. in 1937 and joined Alabama Power in 1952, serving as executive assistant both before and after the merger of the two companies. In 1953, he became assistant manager of labor relations and then manager of labor relations in 1956. He was elected vice president of employee relations in 1968 and assumed the duties of senior vice president in 1975.

Auburn Clubs: Off-Campus Auburn Spirit

When more than 1500 Auburn friends and alumni got together in Birmingham earlier this fall, they set a record for attendance at an Auburn club function. Other groups

scattered throughout the U.S. may not equal in numbers the Jefferson County group but each of them has its own bit of that Birmingham crowd's enthusiasm—the Auburn spirit.

It may sound hokey but spirit's what Auburn clubs are all about and that isn't limited to alumni. Some of the most enthusiastic supporters in every Auburn crowd never shook a president's hand on a trip across a stage to pick up an Auburn diploma, but have been recruited by the Auburn spirit of a husband, wife, parent, child, or friend who was an alumnus.

More than Report From Football coach

At one time to say "Auburn club" was to mean Auburn men getting together once a year for a report from the football coach on the season's prospects. No more. Things have been changing with Auburn clubs for the past few years. To be sure, bastions of football fever still exist and certainly Auburn fans—male or female—can match rabidity with any group anywhere, but stag football sessions are giving way to meetings concerned with the entire Auburn program. No longer just bringing in the coach for a barbecue, the Auburn clubs have groups visiting their local high schools to talk about Auburn, providing scholarships for Auburn students, and expressing an interest in the academic as well as the athletic. The deans of Auburn's Schools of Business and Engineering have been guests at recent club meetings and the deans or their representatives from other schools will be meeting with clubs in the future.

The Alumni Office sets up speakers, mails out announcement of meetings, and provides the clubs with up-to-date lists of alumni in the area as a part of its club program. With the help of Cindi Parramore, Tommy Lambert coordinates the club program. Sharing the responsibility for the Alumni Association's club program with him are Julian Holmes and Jerry Smith.

Not Limited To Alumni

In talking about Auburn clubs, the people in the alumni office who work with them, find it almost easier to talk about what clubs are not than what they are, since individual clubs vary so much. Julian Holmes stresses that the Auburn club "is not a quarterback club." Tommy Lambert echoes that statement and adds that "Auburn clubs are not just for alumni—we solicit the support of all Auburn people."

Almost as many different kinds of Auburn clubs exist as there are Auburn clubs, according to Tommy. "We have some

of the once-a-year kind based entirely on athletics. They invite the football coach and all the men alumni in the county get together to hear him. Other clubs have four or five meetings each year, keeping their members up-to-date with a newsletter and each time they meet they emphasize a different facet of the Auburn program."

Varied Activities

During the past year, activities of various Auburn clubs have included wine and cheese parties, charter trips to athletic events, participation in career and college days at local high schools, a welcome wagon program, club scholarship programs, and gifts to Auburn Annual Giving.

Scholarship Programs

A growing number of Auburn clubs are starting scholarship programs to benefit students from their area who want to come to Auburn. Clubs currently supporting scholarships for Auburn students are the Atlanta Club (2), the Mobile Club, the Tampa Bay Club, the Morgan County Club, the Madison County Club, the Pensacola Club, and the Calhoun-Cleburne Counties Club.

Clubs Stretch to California

Most of the 80 formal Auburn clubs are located in Alabama and the Southeast, with some as far away as the two in California. Informal clubs exist as far away as Korea. The difference between a formal and informal club is based on the number of people involved and hence the degree of aid which the Alumni Office can offer the individual club. The Alumni Association encourages formal clubs only in areas where a minimum of 150 alumni live within a 50-mile radius.

Auburn has one of the strongest club programs of any university, and if there's an Auburn club in your area, check them out. You will find some old friends and meet some new ones, all with a strong interest in Auburn.

Former P.E. Prof Dies

Harriette Donahoo, former Auburn associate professor of physical education, died Sept. 14. Miss Donahoo died in Milledgeville, Ga., where she was assistant dean and director of student activities at Georgia College.

Survivors include three sisters, Mrs. Fred Roesch of Largo, Fla., Mrs. Mary Bugardner and Mrs. Alice Stoves, both of Bessemer.

AUBURN ALUMNALITIES—Continued

He holds an M.S. in textile technology from the Institute of Textile Technology in Charlottesville, Va. He and his wife, Edwina Jane, have two sons: Robert J., Jr., 9 and David P., 2. They live in LaGrange, Ga.

Clinton W. Whitten is chairman of the social science department of Faulkner State Jr. College in Bay Minette.

Larry D. Easterwood, Extension Service associate county agent in Madison County, has been appointed county agent-coordinator for Russell County. He joined Extension in 1961 and earned a master's in agricultural education from Auburn in 1971. In 1973, the Chambers County Farm Bureau, Southern Union College, and the Alabama Forestry Commission cited him for service to youth. This year the Madison County Cattlemen's Association honored him for his contributions to the improvement of the Madison County beef industry.

Mr. and Mrs. Robert G. Hall, Jr., (Carolyn Andrews '64) live in Columbia, S.C., where he has been named director of classification and compensation for the South Carolina State Personnel Division. The Halls have two sons—Bobby, 13, and David, 9.

Joe E. Lashley has been named county agent-coordinator for the Perry County Extension Service. He had been an associate county agent in Sumter County. He has worked with Extension previously in Elmore county. Mr. Lashley holds a master's in agriculture from Auburn. He has been honored by the Sumter County Soybean Producers for his work and by WYLS Radio in Livingston for a radio service program for area farmers and gardeners. He and his wife, Peggy, have four children.

1962

Mr. and Mrs. Hollace R. McKinley (Myrna Ann Cumby)

live in Woodburn, Ind., where he is manager of advanced manufacturing engineering for General Purpose Motors of the General Electric Co. in Fort Wayne, Ind. They have two children: Janet, 9, and Jeffrey, 13.

Jane Wilson Steen graduated August 26 from the physician assistant program of the Bowman Gray School of Medicine in Winston-Salem, N.C. Physician assistants are trained for two years to handle routine health care tasks which have traditionally been done by doctors. Assistants work under the direction of a physician.

Carl E. Horne of Hampton, Va., is head of the electrical and mechanical systems section of the plant engineering division with NASA at Langley Research Center. He and his wife have three children.

Thomas E. Sims, III, is a computer and research consultant with Knight Ridder Newspapers, Inc., He and his wife, Sherrie, and children—Meris, 14, and Ted, 10—live in Fort Lauderdale. Tom received an MSEE in 1972 from Georgia Tech and completed course work for the Ph.D. in EE before moving to Miami in 1973 as systems engineering manager with the Miami Herald Publishing Co. He moved into the corporate office during the past year.

George Clayton Hoomes has been appointed county agent-coordinator for Blount County. He had been Extension Service agent in Dallas County for the past 10 years, and had earlier worked in Washington County. Mr. Hoomes, who holds an M.S. in agriculture from Auburn, received the Outstanding 4-H Agent Award from the Alabama Association of County Agricultural Agents in 1973. In 1976, the Dallas County Cattlemen's Association honored him for his outstanding service to junior cattlemen and youth. He and his wife, Nell, have two children.

Dr. J. Ford Laumer, assistant professor of marketing and transportation in the Auburn School of Business, has been named Outstanding Professor by the

students in Business for the second time.

BORN: A son, Mark Alan, to Mr. and Mrs. James (Bud) E. McGlown (Jane Boss) of Huntsville on May 23. He joins sister Meredith and brother Scott. Bud is the industrial engineering supervisor for Chrysler Corp. in Huntsville.

1963

H. Joe Perry is a senior engineer for PRC System Service Co. on the Space Shuttle at Kennedy Space Center.

Gordon W. Hutt is executive officer of a nuclear-powered strategic deterrent submarine the USS Thomas A. Edison. He lives in Pearl City, Hi.

Charlotte Bradfield Kennedy is a librarian with the Muscogee County, Ga., School System. Her husband, Hugh, is a counselor for Vocational Rehabilitation in Columbus. They have two children: Allison, 8 and Brad, 10.

Dr. and Mrs. James E. Miller (Diane Moon '64) live in Cantonment, Fla. Jim is head of the Applied Sciences Mission Cluster at the University of West Florida and serves as the chairman of the Departments of Mathematics and Statistics, Physics, and Systems Science. Diane is president of the University Women's Club, chairman of the Committee on Human Resources for the League of Women Voters, and membership chairman of the Pensacola Art Association. They have two children: Debbie, 9, and Mike, 3.

David H. Pierce of Charleston Heights, S.C., was named in Who's Who in Education in South Carolina last year. He is currently president of the Charleston County Education Association and serving on the board of the South Carolina Business and Office Education Association.

Dr. and Mrs. George L. Tallman, Jr., (Barbara Vance) live in Sarasota, Fla. Dr. Tallman's new clinic has won *Veterinary*

(Continued on page 12)

For Auburn—

Gardner 1st All-American Golfer

Frank (Buddy) Gardner, Auburn's All-American golfer, is one of three runners-up for the Fred Haskins Award, the Heisman Trophy of golf. Scott Simpson of Southern Cal, two-time NCAA winner, won the award this year, but according to Buddy Davidson, Auburn's sports information director, the Auburn golfer's share of the 2000 votes cast was a large one, and Gardner made a particularly strong showing in the Midwest, South, and East.

Buddy is 21 years old now, but he began his golfing career early. At the age of 8, he took the fifth flight in the Bonnie Crest Junior Tournament at Bonnie Crest Country Club in his hometown of Montgomery. In 1973 he won the state high school championship, in 1974 and 1975 the State Amateur Championship, and in 1976 led Auburn University to its first SEC championship. Buddy was named to the All-Sec teams in 1976 and 1977 and to the second team Golf World All-American in 1976 and third team Coaches' All-American in 1976. This year he's been named to the Coaches' first All-American team.

Buddy has set a few other standards, also. In 1976 his stroke average was 70.3 and in 1977 he had an average of 71.2. He held the Old Saugahatchee Country Club course record of 61, that's eleven under par, and has established a new record for the new Saugahatchee course—65, that's seven under par.

In local circles, Buddy has won the Bonnie Crest Invitational three times—in 1973, 1975, and 1977; the Montgomery Country Club in 1975; Arrowhead in 1973, and Prattville in 1973. He holds wins in the Jasper Invitational, 1974; Dixie Amateur Championship in 1976 in Miami; Olympia Spa Tourney in 1974; Panama Miracle Strip in 1972. He was runnerup twice in the All-

America Collegiate Tournament in Houston, Texas, in 1976 and 1977, and won 5th place in this year's NCAA Championship.

Buddy turned pro after the NCAA match and almost immediately qualified for the British Open. He was one of six who made the tournament from a list of 50 players on the International Tour, which included many Americans. Buddy shot an 80 the opening round of the tournament and then withdrew after a virus caused him to pass out on the 17th tee the next day. Buddy's first payoff, for qualifying for the Open, was a check for 150 pounds, about \$250 in American money.

Since then, Buddy has completed the European Tour and

returned home. On the way, he picked up his biggest professional paycheck, \$1980 in "solid gold" Swedish crowns, for his finish in the Scandinavian Enterprise Open, fourth among Americans in the tournament. And he stopped off at New York's Waldorf-Astoria for the All-American banquet. Buddy will be stopping off in Auburn soon to visit old friends and coaches and give them the inside story of what the life of a young and up-coming golf pro is really like. Meanwhile, Coach Anthony Dragoin can be congratulating himself for having the kind of second-sight all coaches would like to have—for recognizing All-America potential in a boy as young as eight and for keeping that faith until the boy became, in the public eye, Auburn's first All-American and most-honored golfer.

GOLF, PROFESSIONAL STYLE—Buddy Gardner, Auburn's first team All-American golfer and one of three runners-up for the coveted Fred Haskins Award, demonstrates the style that qualified him for the British Open and earned him a spot on this summer's European Tour.

Auburn Club News

Charlotte (N.C.) Area alumni met on August 26 for a social hour and dinner. Officers for the group include: H.K. (Hal) Nix '41, president; Tom F. Rankin '64, 1st vice president; Dr. Robert B. Salmon '54, 2nd vice president; David T. Bryan '70, treasurer; and Charles Lee Watson '70, secretary.

Dallas County Auburn Club held its annual meeting on July 26 in Selma. Outgoing president William C. (Bill) Porter '66, presided. New officers elected include: C. Doug Chandler '55, president; Leonard E. Ingram '69, 1st vice president; Robert F. (Bob) Owen '59, 2nd vice president; Bill Porter '66, secretary; F. Scott Hereford '64, treasurer.

Members of the Jackson County Auburn Club met August 16 at Bob Word's home in Scottsboro for a barbeque. Sixty-three attended the meeting at which Dr. Sam Holland presided.

Tidewater Area (Va.) Auburn Club met August 5 in Virginia Beach for a dinner meeting. Guests from Auburn included Dean Vincent C. Haneman of the Auburn School of Engineering, Dave Beck of the Alumni Office and the Athletic Department, and Jerry

Smith of the Alumni Office. Presiding at the meeting were Col. James M. Shuler '45 and Lea Masters '62.

Northwest Alabama Auburn Club members met on August 9. The program included athletic reports from Coaches Dal Shealy and Larry Blakeney of Auburn and a report on the operation of the Experiment Station at Winfield by Robert A. Moore, Jr., '57, director of the station. The club, made up of alumni and friends from Marion, Fayette, and Lamar Counties, recognized the oldest alumni there—E. Les Peach '28 of Hamilton and W.W. Hester '29 of Guin—and the youngest, Tinsley H. Gregg '76 of Hamilton. Current officers were re-elected. They include Thomas E. Mullis '60, president; Bob Hamner '58, vice president, and R. Gerry Hester '50, secretary/treasurer. Executive committee members are B.G. Rudicell of Hamilton, Olan B. Cunningham '54 of Winfield, Ronald G. Hollis '62 of Sul-ligant, George R. Bolling '59 of Fayette, Ray Golden '47 of Millport, and Sam J. Renfro, Jr., '49 of Fayette.

New officers of the Albany, Ga., Area Auburn Club are Larry R. Heisler '69, president; Ralph B. Jones '72, 1st vice president; D. Wayne Thursby '70, 2nd vice president; Elton Wolf, Jr., '72, marshal; George

A. Loyed '68, secretary; Patti Pruitt Inlow, treasurer.

Tallapoosa-Coosa-Clay Auburn Club met August 5 for its annual meeting. Guests from Auburn included Coach Doug Barfield and Alumni Secretary Buck Bradberry. W. Larkin Radney, III, '69 presided at the meeting, attended by 150 alumni and friends.

Montgomery Auburn Club members met for an annual barbeque with more than 400 on hand for the meeting at AUM. Presiding officer was C. Frank McCorkle '51, outgoing president. New officers of the Montgomery Club are: Richard D. (Dicky) McAdams '57, president; George B. Clements '66, vice president; Tom D. Luncford, Sr., secretary; Dan L. Lindsey '58, treasurer, and directors: H. Parker White '56, Bolling P. Starke, Jr., '60, James E. (Jim) Vice '58, Wingard Jackson, and A.K. Clements, Jr., '40.

Etowah County Auburn club members met August 16 at the Gadsden Country Club for a banquet. W.B. (Bill) Johnson '70 presided at the meeting, attended by 77 alumni and friends.

Economics magazine's Animal Hospital Design Merit Award for July, 1977, which enters it in competition for this year's "Hospital of the Year."

Charles A. Mandy, Jr., is president of American Technology Corp. of Huntsville. He has three children: Chuck, 13; Paul, 10; and Beth, 6.

Kenneth Key was recently promoted to lieutenant colonel with the Air Force. This month he will be assigned to Keesler AFB, Miss., to attend the communications-electronics staff officer course. He had previously been attached to the USAF Rescue Detachment at Keflavik, Iceland. He recently helped with the rescue of a seriously ill German fisherman 250 miles off the coast of Iceland in the North Atlantic.

1964

Jerry B. Clark has been promoted to county agent-coordinator for the Auburn Extension Service in Greene County. He had been associate county agent there. He will retain educational duties in 4-H, forestry, fish and wildlife, insect control, ornamental horticulture, and commercial horticulture. He joined the Extension Service in 1965 in Walker County and earlier worked as a consultant entomologist for Hercules, Inc. Mr. Clark has been honored by the Alabama Association of County Agricultural Agents for 4-H, public information, and career guidance programs and by the National Association of County Agricultural Agents for career guidance programs. He has received the Meritorious Service Award from the Walker County Cattlemen's Association, the Award of Merit from the Greene County Commissioners, and the Conservation Educator Award from the Alabama Wildlife Federation.

R. Bruce Gray, Jr., has been promoted to manager of industrial systems development with the central data processing systems at WestPoint-Pepperell's Management Information Center in Fairfax. He has been with W.P.P. since 1960 in several positions. He and his wife, Annette, and their sons—Robert Bruce, III, 9, and Daniel Allen, 7,—live in Lanett.

Maj. Thomas D. Hovey has graduated from the Armed Forces Staff College at Norfolk, Va. He is now assigned to Norton AFB, Calif., as a civil engineer with a unit of the Military Airlift Command.

George C. Kinzer is the first secretary for cultural affairs at the U.S. Embassy in Dar Es Salaam, Tanzania, where he has been since August, 1976. He works as a Foreign Service Information Officer with the U.S. Information Agency. Since 1967, he has had assignments in Zagreb and Belgrade, Yugoslavia, and Prague, Czechoslovakia.

Larry Chapman, former Auburn basketball star and former head basketball coach at Auburn High School, has been named athletic director and head basketball coach at Auburn University-Montgomery. He comes to AUM from Georgia Southern College in Statesboro, Ga.

Waters

Taylor

Herbert Waters '49 has been appointed president of Firestone Wire and Cable Company of Danville, Ky. Mr. Waters has previously served as a special project engineer for Firestone in Italy, a project manager at the Hopewell plant in Virginia, and an administrative assistant to Rosenson in Ohio.

W. Terry Taylor '64 has been promoted to vice president of H. B. Maynard and Company, Inc. H. B. Maynard is a private industrial training organization and a member of the Planning Research Corp. Mr. Taylor worked for Burlington Industries and Carolina By-Products before joining Maynard in 1968. He was presented Maynard's President's Award for Outstanding Performance in 1971.

AUBURN ALUMNALITIES—Continued

Maj. Ed Bartlett, a member of the 89th Military Airlift Wing at Andrews AFB near Washington, D.C., flies cabinet members and other government figures. He was pilot on the trip that took Sec. Cyrus Vance to Russia for five days, another that took Vice President Walter Mondale to Northern Ireland and Spain among other countries for ten days. Maj. Bartlett is in the third year of a four-year tour at Andrews and his piloting assignments have included one trip as pilot to former Secretary of State Kissinger—his last trip to Brussels and London. Maj. Bartlett and his wife, Carolyn Orr '65, are both from Opelika. They have a daughter, Catherine, 7. He considers his trip to Russia the most interesting one to date.

Harry G. Craft, Jr., received his master's in administrative science from the University of Alabama in Huntsville recently. He and his wife, Nell Spivey '67, have two children Jeffrey and Karen. Harry is with Marshall Space Flight Center as assistant manager for the first Space Lab Mission.

Dr. Jerry Bedsole is in Limuru, Kenya.

John Hendricks of Auburn recently paid a special visit to Washington to visit his old friend Hugh Carter, the special assistant to the President. The entire Hendricks family went along to Washington and to several State ceremonies where they mingled with the family of Sen. Barry Goldwater and met Mrs. Cyrus Vance, and Gen. Lewis Wilson on a VIP platform. A special visit to the White House included a meeting with the President, a tour of areas of the White House not usually seen by tourists, and a meal in the executive staff's mess hall. The Hendricks family includes Johnny, 12, and Lisa, 10.

Maj. James E. Windham, Jr., is commander of the 10th Transportation Squadron at Alconbury RAF Station, England.

David J. Hickey is president of Boiler Equipment Service Co., a manufacturer's representative company in the Southeast. He and his wife, Wanda, and their three children—Mike, 15; Pat, 9; and Beth, 3—live in Atlanta.

Carl Gagliano has merged his consulting business with Duloherly & Weeks Inc., to form the firm of Duloherly Weeks & Gagliano, Inc., consulting engineers, in Savannah, Ga. The firm offers services in designing mechanical and electrical systems for institutional, industrial, commercial and residential projects, new construction, and renovations. Mr. Gagliano earlier worked with Sperry Rand and the Naval Electronic Command before starting his own consulting engineering practice in Savannah in 1975.

L. Edward Cole lives in Morrow, Ohio. He is unit manager with rotating component repair design for the General Electric Aircraft Engine Group in Evendale, Ohio, providing engineering analysis of repairs for GE jet engines including the B-1 Bomber, F4 Phantom, and DC 10 and 747.

J. Wayne Fears is wildlife specialist with Gulf States Paper Co. in Tuscaloosa.

BORN: A daughter, Jill Michele, to Mr. and Mrs. William R. Ager-ton of Athens, Ga., on July 8. She joins sisters Lori, 10½, and Vicki, 9.

1965

Dr. and Mrs. W.T. Mitcham live in Leesburg, Ga., where he is practicing periodontics in nearby

Albany. The Mitchams have a daughter, Amanda, 2, whom they expect to enter Auburn in 1993.

Dr. and Mrs. James L. Smith (Sylvia Jones '66) live in Huntsville where he is a research physicist in optical data processing for the Army Missile Command at Redstone Arsenal. Sylvia completed her master's in library media in 1974 and is now a media specialist at Grissom High in Huntsville. They have a daughter, Telura, 7.

Kitty Blake Woodbury now has a master's in social work and is working for the State of Florida, developing and implementing an alcoholism treatment program for hospitalized mental patients. Her husband, Mark, is a freelance photographer who recently opened a studio for commercial legal, portrait, and wedding photography. They recently bought a house in Ft. Lauderdale.

Curtis H. O'Daniel is associate county agent for the Cooperative Extension Service in Talladega. His wife, Judy Callaway, teaches in the city school system. They have three children: Claire Ann, 9; Curtis Harold, Jr., 7, and Christopher Callaway, 9 months. Curt is president of the North Talladega Alumni Association and Judy is assistant treasurer.

Henry J. Casares has been named assistant secretary in the group and casualty-property division of the international department at The Travelers Insurance Companies in Hartford, Conn. He has been with the companies since 1966. He had been chief underwriter since 1975. He and his wife have two children.

Marian Daniel Williams lives at Ft. Benning where her husband, Maj. W.W. Williams, is stationed. They have a son, David.

Reggie Gilbert is personnel manager with First National Bank of Birmingham. He, his wife, Laurie, son Hardy, and daughter Carrie live in Forest Park.

MARRIED: Patricia M. Grove to Carl H. Weaver on July 9 in Birmingham. Patricia is a second grade teacher in Roswell, Ga. Her husband works with Lockheed Aircraft of Georgia. They will be at home in Marietta, Ga., after Nov. 15.

BORN: A son, John Constantine, to Mr. and Mrs. Constantine J. Cordonis (Sandra McLemore '66) on Dec. 10. He joins older sisters, Sophia Ellen, 6, and Catherine Elaine, 3.

1966

Mr. and Mrs. Carlton N. (Nickie) McDaniel (Jean Smith '65) live in Albany, Ga., where he is manager and secretary of Waggaman and Collyer, Inc., construction company. They have a son, Brian Allen, 7.

Mr. and Mrs. Dewey H. Jordon, Jr., (Alice Russell '65) now live in Hickory, N.C. Alice writes: "I knew I had found the wallpaper I needed for our sons' bathroom when the letters A U B U R N met my eyes. Unfortunately the Auburn here was an automobile and not our favorite university. In North Carolina, we War Eagles are few, but each day the boys will remember our Auburn!"

Horace W. Peerson, III, is self-employed in the housing construction business in Birmingham. He and his wife, Marie, have three sons: H.W. Peerson, IV, age 3 and twins Graham and Charles, 1.

Lenora Sylvest Upchurch is now Mrs. Marvin Lewis, III. She lives in Montgomery.

Dr. Robert A. Shimp is associate director of the vivarium at the Medical College of Georgia in Augusta, Ga. He and his wife, Suzanne Reeves, have two sons—Tom, 8, and Will, 5. They live in Martinez, Ga.

Mr. and Mrs. S. Wayne Slay (Margaret Cowham) recently moved to Montgomery from Tampa, Fla. Wayne is customer service supervisor with United Parcel Service and Margaret teaches math at George Washington Jr. High School. They have four children: Stacey, 9; Brent, 7; Douglas, 2; and Rebecca, 1.

J. Roger Payne has recently gone into the contracting business in Mobile with his own company, James R. Payne, Inc. He and his wife, Angela Corinne Kennedy '65, have two children: Cindy, 12, and Katy, 2.

Neal Cobb is the Alabama district manager for WESCO in Decatur and Huntsville. WESCO, the electrical distributor division of Westinghouse Corp., recently bought all Moore-Handley electrical divisions. Neal has been with Moore-Handley since 1970 and had been division manager since 1975.

Michael Browder has been named general manager of Bristol Tennessee Electric System in Bristol, Tenn. He has been with the system since 1972 and earlier was superintendent of engineering with the Huntsville (Ala.) Utilities. He holds a master's in administrative science from the University of Alabama in Huntsville and is a registered professional engineer in Alabama and Tennessee. He is a member of the Institute of Electrical and Electronics Engineers, chairman of the 1977 transmission and distribution committee of the American Public Power Association, and 1977 co-chairman of the engineering and operating section of the Tennessee Valley Public Power Association. He and his wife, Cathy, have two children: Bob and Lisa.

Benjamin P. Lewis, Jr., is working in new drug evaluation with the Food and Drug Administration's Bureau of Drugs in Rockville, Md.

Dianne Thompson Burt of Huntsville has been named to the 1977 Outstanding Young Women of America. Selections are based on accomplishments in home, profession, and community.

BORN: A son, Charles Manley, IV, to Maj. and Mrs. Charles M. Canon, III, of Hummelstown, Pa., on August 5. He joins sister Whitney Jane. His paternal grandfather is Charles M. Canon, Jr., '33 of Opelika....

A daughter, Marian Carroll, to Mr. and Mrs. Walter Cleverdon (Stephanie Sullivan) of Mobile on July 21. She joins big sisters Stephanie Hart and Catherine Hauser....

A son, Andrew Christian, to Mr. and Mrs. Donald E. Brewer (Barbara Wallace) of Houston, Tex., on June 17. Both Barbara and Donald are advisory programmers on Ground-based Systems for the Space Shuttle at Johnson Space Center in the Federal Systems Division of IBM.

A daughter, Linsey, on Nov. 23 to Mr. and Mrs. Mike Murphy (Frances Blake) of Manning, S.C. She joins sisters Brandy, 7, and Clancey, 3.

1967

Lt. and Mrs. Michael B. Putnam (Munger Watts '69) live in San Diego where he is stationed aboard

Football Roundup

Snapshots from Jefferson County Auburn Club

ARIZONA ZIGGED: Arizona zipped when it should have zagged Sept. 10, proving that practice doesn't make perfect. Earlier in the week, Coach Doug Barfield had told the press that he didn't like the idea of playing against a team that had been practicing five more days than Auburn, but apparently the five extra days weren't enough—Auburn won, 21-10.

According to Auburn flanker Ray Powell, the Wildcats got their just desserts. "It's kind of a revenge situation," he said before the game. "Last year Arizona was Coach Barfield's first game, and he lost. This year they've got a new coach, and we hope to greet him the same way." A young team that Coach Barfield suggested might end up nicknamed "The Kiddie Corps," the Tigers played a rugged, consistent game punctuated by splendid kicking.

Linebacker Freddie Smith ignited the Tigers when he blocked a punt late in the first quarter 15 yards from the Wildcats' goal. Three plays later, running back Joe Cribbs had scored from the eight—the only War Eagle touchdown in the game—and sophomore Jorge Portela had kicked the PAT, his first varsity extra point.

In the second quarter, Arizona's Jim Krohn threw a 13-yard scoring strike to Harry Holt with 10:59 left in the half, and Lee Pistor kicked to tie the score 7-7. On their next possession, Auburn had another bid cut short when pass interference was called against Tiger tight end Dick Haley. The result was a 15-yard penalty, along with loss of down.

Auburn got an excellent field position moments later on a short punt by Engle, but Portela's 39-yard field goal attempt hit to the right of the goal post. A 28-yard pass from Crane to Franklin made way for Portela's next boot, a 36-yarder with 30 seconds left in the half.

Auburn's second half proved to be a rough match, with Arizona taking the kickoff and marching 46 yards to the Auburn 21, where Pistor kicked a 37-yard field goal to even the score 10-10. Tiger toe Portela took over again after a mistake-ridden third quarter to score three field goals in the fourth. His four three-pointers—36, 37, 47, and 30 yards—tied an AU record set by Neil O'Donoghue last year and John (Rat) Riley in 1968.

Montgomery's Tommy Hicks was a dominant figure in the fourth quarter, tackling Wildcat quarterback Krohn in the end zone for a safety. Auburn defenders battled the Wildcats to a stall all afternoon, allowing only two scoring drives. Arizona managed a low 77 yards total offense in the second half and a 177-yard total for the game.

All-American candidate Freddie Smith, later named defensive player of the week, made 13 solo tackles, 3 assists, and 3 behind the line of scrimmage. Offensive player of the week Joe Cribbs led Tiger rushing with 121 yards on 17 carries. He also scored Auburn's only touchdown. John Crane completed 4 of 12 passes for 69 yards and ran 7 times for 10 yards. Superb punting by Skip

Johnston resulted in an average of 42.2 yards on six boots. Foster Christy produced 33 yards on 9 carries and flanker Jerry Beasley 37 yards on 5 carries. James Brooks electrified the crowd with 89 yards on 3 kickoff returns and two punt run-backs for 15 yards.

According to AU safety Rick Freeman, the '57 team had something to do with the '77 victory. "If they could do it in '57, we knew we could do it in '77," Freeman said. Before the game the '57 national champion Tiger team had met briefly with the '77 team to wish them well.

ONE LOST TO SOUTHERN MISS.: Said Coach Doug Barfield when it was all over, "We just got beat." Yet despite the 24-13 upset loss, Coach Barfield had not given up on his Tigers. "What we've got to work on is not letting our young team lose heart and confidence," Coach Barfield said. But the weekend of September 17 was a letdown, for the fans as well as the team.

The fans, if not the coaches, had expected an easy victory over Southern Miss., or a victory at the very least. But the Tigers were ambushed—as much by their own mistakes as anything—and the Eagles took advantage of every Auburn error. During the course of the game, the Tigers lost four fumbles and had two interceptions, paving the way to the first Golden Eagle victory over Auburn since a 3-0 win in 1965. Auburn's number one gainer John Crane got 61 yards in 15 efforts; Joe Cribbs got 55 yards in 14 tries. Rusty Byrd caught three for 33, Brooks two for fifty, and Bryon Franklin two for 22. Freddie Smith came through with 13 solos and 12 assists, cornerback James McKinney and Mike McQuaig with 10 each, noseguard Donnie Givens with 11, Mike Hubbard nine, and Anthony Jones eight.

"I'm embarrassed for the team and myself," said Coach Barfield, "not just because of the loss but for not getting the team ready to play." But it may be that one Auburn coach, P.W. (Bear) Underwood, is somewhat responsible for the Golden Eagle victory over Auburn. Says Coach Dal Shealy, "Bear Underwood recruited half that team." Maybe the SMU recruits were trying to show their former mentor just how right he was to choose them.

AU TAKES TENNESSEE: September 24 was the brightest Saturday thus far in the season for the Auburn fans who travelled to Knoxville to see a stunned Tennessee fall 14-12 to the Orange and Blue. As a result of that win, Auburn stood 1-0 in the SEC, 2-0 over Tennessee, and 2-1 for the season. Tennessee fans, 80,000 strong, packed Neyland Stadium only to see Auburn come from behind a 12-0 Vol lead early in the second quarter, score, score again, and then fight the Tennessee offense until time ran out.

In the first quarter of the game, things didn't look so good for the visiting team. The Tigers were fourth and 16 on their 17, a punting situation for Skip Johnston. But Tom Nettleman, Auburn's snapping specialist,

shafted the ball about five yards above Skip's head and out of the end zone, to a safety and two points for the Vols. Portela kicked off from the 20-yard line, only to see Tennessean Jerome Morgan take the ball at his 19 and move it out to the Auburn 48 to give Tennessee a solid field position.

In eight more plays, Kelsey Finch had scored a TD and Jim Gaylor had booted the extra point. The Vols led 9-0 with 54 seconds remaining in the quarter. On the first play of the second quarter, Johnston went back to punt, dropped the ball and had to fall on it. Fortunately for the Tigers, the Vols copped two freak five-yard penalties from which they never fully recovered.

Quarterback Streater made it to the Auburn one only to lose five yards when officials claimed that teammates had carried him from the three-yard line. But if the TD drive was stymied, Gaylor wasn't; he booted a 24-yard field goal, leaving Auburn behind 12-0. With 13:04 left in the half, Auburn began to roll. With Crane calling the shots, the Tigers took the kick at their 22 and ploughed 78 yards for a touchdown. The big play came when Crane fired a 24-yarder to freshman Bryon Franklin at the goal line. Portela made the extra point and Auburn was back in the ball game at 12-7 and 6:57 left in the quarter. Penalty-plagued Tennessee saw a roughing-the-kicker charge against them give Auburn a first down at its 40 with 43 seconds to go. Brooks put some life in the game when he sped 25 yards to the Tennessee 16, but the half ended 12-7, Tennessee.

Both Johnston and Brooks won plaudits early in the second half—Johnston with a 49-yard punt that put the Vols in the hole at the one-yard line, and Brooks with a 40-yard move to the Vols' four. Auburn moved back to the 9 following a five-yard penalty, but Crane gained five and Andrews scored the second Tiger TD of the game. Portela added the final point, then the defense took over for a couple of long-to-be-remembered gems, including an over-the-middle Vol aerial captured by sophomore James McKinney and a sensational stop by Tiger Anthony Jones, who fell on a bobbled snap at the one-yard line to put a lid on the Vols push.

The final quarter may well have been the toughest for both teams, with Auburn desperate to maintain its two-point lead and Tennessee equally desperate to score. The Vols started three fourth-quarter drives, but all failed—two ending in punts and the last in an unsuccessful field goal by Gaylor. Tiger drives started at their 2, 12, and 9-yard lines but exchanges went well and Johnston booted the ball out of trouble. AU's final punt had Tennessee starting on its 42 with 2:26 to go—plenty of time to score.

Suddenly Streater was back in the game and on his way to the AU 42 for a first down. Then the Vols choked up. After a penalty and three runs by Streater, the Vols had netted a

the USS Cleveland. Her brother William A. Watts, III, is an eagle trainer for War Eagle, IV.

Becky Metcalf Schaffer is attending the Nova University Law Center in Fort Lauderdale, Fla.

Mr. and Mrs. C. Edward Taylor (Dodie Plant '72) live in Anderson, S.C. He is department manager with Milliken & Co. at the Excelsior Finishing Plant in Pendleton, S.C., and she is a chemist in research and development with Dow Badische in Anderson.

Marion F. Patrick is an engineer on the Western Railway of Alabama which runs from Montgomery to Atlanta, so he passes through Auburn several times a month. He and his wife, Linda, have three children: Marnie, 12; George, 11; and Melissa, 3.

Iris Deshazo Ziemer is now Mrs. Earl Brown. Her husband is a doctor in Talladega. They live on a 120-acre cattle farm in Alpine, and have two children: Chuck, 7, and Jane, 4.

James R. Box is director of marketing for the Mid-States region of Associated Producers, Inc., in Chicago, Ill. He and his wife, **Waltraud Menzel '71**, live in Woodridge, Ill.

Capt. Peter J. Glenboski, Jr., has received an M.S. from the Air Force Institute of Technology. He majored in logistics management. Capt. Glenboski has returned to Offutt AFB, Neb., as a logistics plans and programs staff officer.

Capt. Dennis E. Carlton is now stationed at Offutt AFB, Neb.

Charles D. Ponder has left CIBA-GEIGY of McIntosh after 9½ years as a senior chemist to become a technical representative with Waters Associates in Atlanta.

Dr. Robert L. Beard, Jr., recently completed an obstetrics-gynecology residency at the University of Kentucky Medical School and is now with Lee Obstetrics & Gynecology, P.A., in Opelika. He

and his wife, Candy, have two children: Amy, 10, and Jennifer, 4.

Capt. Robert W. Buckner is a modular guided weapon systems staff officer at Andrews AFB, Md. He had been assigned to Eglin AFB, Fla. Capt. Buckner earned an M.S. in 1974 from the Air Force Institute of Technology.

David C. Lay is project service and administration manager for the New Jeddah International Airport currently being built by Saudi Arabian Parsons Ltd. and Daniel International Ltd. at Jeddah, Saudi Arabia. When it is completed in 1979, the Jeddah International will be the largest airport in the world.

David C. Sjolund has retired from the Air Force and is now an EMC systems engineer with Northrop in Rolling Meadows, Ill.

Ken Laurendine is marketing representative in Alabama for Loc-tite Corp., an international manufacturer of adhesives and sealants used in the production and maintenance of machinery of all kinds.

John T. Casey is the administrator of the Saint Luke's Hospital complex in Denver, Colo. He had been associate administrator since November. John holds a master's in hospital and health administration from the University of Alabama where he was an administrative resident at the University of Alabama Hospitals and Clinics in Birmingham. He was assistant director of Shands Teaching Hospital and Clinic in Gainesville, Fla., and an assistant professor in the graduate program in hospital administration for the University of Florida from June, 1972 to Sept., 1973. In 1973, he was administrator of the Cathedral Health and Rehabilitation Center in Jacksonville, Fla., until going to Denver last October. He and his wife, Kathryn, have two children: Christopher, 7, and Kathryn, 2.

Gladys Anne Stamps teaches at Madison (Ala.) Middle School. She recently bought a home in Huntsville.

Dr. James A. Wilson is an emergency medicine physician in Tampa, Fla. He and his wife, Rosemary, have two children: Jennifer Marie, 6, and James, III, 4.

MARRIED: Glenda A. Kilgore to T. Max Jacobs on July 31 in Alexander City. They live in Alexander City.

BORN: A daughter, Meredith Leigh, to Mr. and Mrs. Charles T. King, III (Jean Mann '69) of Brandon, Miss. She joins brother, Charles, IV, 3. Charles is the regional manager of the Mississippi office of McCullough Associates.... A daughter, Evelyn Bibb, to Mr. and Mrs. William M. Tuck, Jr., of Estill Springs, Tenn., on June 28. She joins William, M., III, 9, and June Morton, 2.

A daughter, to Dr. and Mrs. William B. Smith (Linda Bone '64) on August 11, 1976. They live in Incirlik CDI, Turkey, where he is chief of Veterinary Services.

1968

Mr. and Mrs. Andy Roberts (Pamela Sketo) and son John now live in Huntsville. Andy graduated from the University of Alabama School of Law in December and is practicing with Joseph B. Smith. Pam is a systems analyst for the City of Huntsville.

James R. (Rick) Held received the Master of Business Administration from Stanford University in June and is now a sales develop-

ment engineer with Hewlett-Packard in their Data Systems Division in Cupertino, Calif.

Herbert E. Kaiser is a marketing representative selling computer time-sharing from the Saddle Brook, N.J., office of The Service Bureau Co., a division of Control Data Corp.

James C. Fisher is assistant football coach and head track coach at Newton County High School in Covington, Ga.

James Allen Main, an Anniston pharmacist, has received the Alabama Pharmaceutical Association's A.H. Robins "Bowl of Hygeia" Award for outstanding service.

Russ and Martha Granger Olvera live in Largo, Fla., where Russ is transit coordinator and director of marketing with Central Pinellas Transit Authority. Martha is a teacher of the deaf in the county special education program. Their daughter, Lauren Brooke, was three in September.

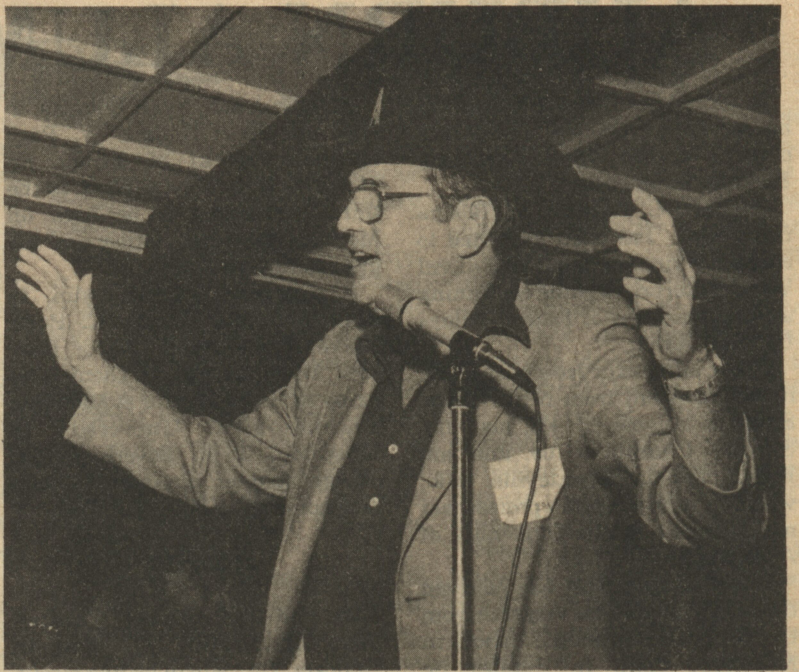

Football

(Continued from page 14)

meagre four yards and were fourth-and-six at the Tiger 43. With 1:00 to go, Streater hit Billy Arbo with an 11-yard pass for a first down at the AU 32. Streater tried to pass, but Freddie Smith held him to no gain. With the clock running, Streater faded to throw again on second down but he ran again, this time gaining 14 yards to the Tiger 18. There were 24 seconds to go when Gaylor came in to attempt a 37-yard field goal. Auburn, Tennessee, and the 80,000 watched the ball wobble off a bad snap. Auburn won, 14-12.

"It was a game of emotion," Coach Barfield said after the heart-stopper with Tennessee. "Better we won it than them." It was also a game of freshmen, with at least two success stories worth repeating. One was that of James Brooks, who rushed for 112 yards against the Vols in only 12 rushes. His 40-yard push in the third quarter set up the Tigers' victory score. Wide receiver Bryon Franklin caught just one pass the entire game, but that was the 25-yard Crane throw that settled in for the first Auburn score. Sophomore James McKinney stopped a Tennessee drive with an interception, and junior John Smith recovered a fumble in the fourth quarter and probably broke the Vols' spirit when he did it.

Overall, it was one of the most exciting games that AU fans have seen in a while, and it was equally exciting for onlooker and head coach Barfield. "I started not to look when they were trying the field goal there at the end," he said. "But then I started to go ahead and look with the thought that they were going to miss it. We had given them 12 points in the kicking game, and it was poetic justice." Meanwhile, back at Toomer's corner in Auburn, streams of white tissue shimmied from poles and wires to the street below, like a theatre curtain drawn after the last act of an upbeat, successful performance. Catharsis—that was the Tennessee game.

He has completed a master's in business administration and is working on a master's in systems engineering at the University of Florida....

A son, James Kyle, to Mr. and Mrs. **Harold I. Chandler (Ginger Perkins)** of Nashua, N.H., on May 12.... A daughter, Meredith Leigh, to Mr. and Mrs. **James N. Radney (Lucy Kerr)** of Daphne on February 26.... A son, Seth Matthew, to Mr. and Mrs. **Rufus Haymon (Barbara Barnes)** of Eufaula on April 12....

A daughter, Kelly Elizabeth, to Mr. and Mrs. **Michael H. Vinson** of Florence on July 8.... A daughter, Brandi Marie, to Capt. and Mrs. **Grover E. Young (Rebecca Walton '73)** of Fort Benning, Ga., on May 10. She joins big brother Brian Clay, 3.... A daughter, Lindsay Auburn, to Dr. and Mrs. **Joe B. Crane, II, (Linda Taylor '73)** of Valdosta, Ga., on July 8. She joins sisters Helen Ann, 3, and Leslie, 2....

A son, Gregory Alan, to Mr. and Mrs. **A.G. (Pete) Newman (Katherine Lake '71)** of LaGrange, Ga., on July 5. He joins Henry, 4, and Anna, 1.

1973

Stephen O'Neal Spinks has received his master's degree in international and comparative law from the Vrije Universiteit Brussel in Brussels, Belgium, graduating *magna cum laude*. He finished first in a class of 28 lawyers and civil servants from all over the world. He graduated from the University of Georgia School of Law in June, 1976, and has passed the Georgia bar exam. During his law school career, he worked on the *Georgia Journal of International and Comparative Law* and had two short articles published in the student section of the *Journal*....

James (Butch) Grimes, an architect with the State Building Commission in Montgomery, rescued 3-year-old Tommy Stroud of Rockford from a well shaft where the child had fallen headfirst and had lodged in the narrow, muddy hole in the unfinished bottom. The architect lowered a rope into the well, shimmied down it, and pulled the boy out of the hole. The child responded after mouth-to-mouth resuscitation. By the time Coosa County deputies and an ambulance arrived, Tommy was breathing on his own. The boy's mother called the rescue a "miracle." The Grimeses had just happened by the scene of

the accident on the way to Mrs. Grimes' high school reunion....

Kenneth L. Whitmore received his master's in business administration in November, 1976, from the University of Alabama at Birmingham, finishing with a cumulative grade point average of 2.94/3.00, and was inducted into the Beta Gamma Sigma, national honor society in business in May....

Dr. Harrell D. Day has bought the Montevallo Animal Clinic, where he now practices.... **Talitha Todd Gollotte** of Opelika, a social studies teacher at Loachapoka High School, is among 54 teachers nationwide who received scholarships to attend an intensive graduate-level seminar on "Principles of Freedom" conducted in June by Freedoms Foundations in cooperation with the University of Scranton (Pa.).

Lt. Col. Nicholas D. Cantwell has assumed command of the U.S. Air Forces in Europe Procurement Region at Ramstein AB, Germany.... **Drs. Ashby and Eleanor (Myers) Green**, with children Ashby, Jr., 4, and Stacy Elizabeth, 2, have moved to Mississippi State University. Dr. Eleanor is on the equine clinical staff of the new veterinary college and Dr. Ashby serves on the food animal clinic staff and as state Extension veterinarian....

Edward W. Tinsley has been promoted to industrial engineer manager at Milliken & Company's carpet service center plant at LaGrange, Ga.... **Sue Anne Harbart Grosson (Mrs. Gary S.)** began school in medical technology in 1974, married in 1975, and now is working in Gainesville, Fla., while her husband attends the University of Florida School of Dentistry....

(Continued on page 22)

Hawthorne Scholarship Bequest

Auburn has received \$48,584 from a trust under the will of J. C. Hawthorne, of Montgomery, according to President Harry M. Philpott.

Under terms of the will, the money will be used to establish the J. C. and Sally K. Hawthorne Scholarship Fund for "deserving student specializing in engineering, chemistry, physics or agronomy."

"These funds will be invested and income received in the next several months will be added to the principal until the fund reaches \$50,000. At that time, the principal will be kept intact and income made available annually for scholarship purposes," Dr. Philpott said.

Management and control of the scholarship funds was left entirely to the discretion of the University. Dr. Philpott stated that the Committee on Student Financial Aid will select the recipients and the amount of the grant will be in keeping with usual procedures for administration of scholarship funds.

In Memoriam '10 Through '77

Homer Quitman Gantt '10 of Gantt died in a local hospital on January 27. Mr. Gantt was a retired electrical engineer and a veteran of World War I. Survivors include a daughter, Mrs. Mary Frank Page of Baton Rouge, La.; two grandchildren, two great grandchildren, two sisters, and a brother.

Albert Adkins Hedge '11 of Menlo Park, Calif., died August 10 in the Whitcomb Convalescent Home there. Mr. Hedge, a U.S. veteran of both world wars and a retired electrical engineer, worked for a utility company from his graduation from Auburn until 1917, when he joined the Army. He attained the rank of captain, but left the service in 1922 to become a design engineer for the California Almond Grower's Association in Sacramento. Between 1923 and 1940 he worked as an engineer for the Pelton Water Wheel Co. in San Francisco. He served as a lieutenant colonel during World War II. In 1945 he went to Brazil as a special War Department liaison officer to develop arsenals and industrial plants. Mr. Hedge worked as a factory administrator for the Marchant Calculating Machines Co. in Oakland from 1945-1947, then joined Schlage Lock Co. in San Francisco, where he was employed until his retirement in 1955. He is survived by two grandchildren and two nephews.

William Clyde Gilchrist '13 of Alexander City died June 10. Survivors include his wife, Mrs. W.C. Gilchrist.

Dr. Richard I. Kearley '14 of Andalusia died August 11 at Andalusia Hospital after an extended illness. An early graduate of Auburn's School of Veterinary Medicine, Dr. Kearley was the first veterinarian to practice in South Central Alabama. He was a football player at Auburn, gaining All-Southern honors as a halfback in 1914, and both captain and coach of the track team his senior year. After graduating from Auburn, he moved to Andalusia, where he was Andalusia High School's first football coach, serving without pay, and where he established a large timber and farming operation in addition to his veterinary practice. Early in his veterinary practice, Bang's disease threatened the fast expanding cattle business in Alabama's Wiregrass and Florida's Panhandle. Dr. Kearley has been credited with halting the epidemic almost singlehandedly. For many years Dr. Kearley served on the State Licensing Board of Doctors of Veterinary Medicine, and he was the last surviving charter member of the Andalusia Rotary Club. Survivors include his wife, Mrs. Ann Leigh Dean Kearley; two children, Richard Kearley, Jr., of Dallas, Texas, and Mrs. Frank Tipler of Andalusia; and four grandsons.

William Emmette Brooks '16 of Brewton died July 15 of a heart attack. He was former publisher of the *Brewton Standard* and owner and president of radio station WEBJ. He served as president of both the

Alabama Press Association and the Alabama Broadcasters Association, and was the first director of the State Department of Labor. A veteran of World War I, he served Escambia County as county solicitor for 12 years and was a member of the Brewton City Council. Survivors include his wife, Mrs. W. Emmette Brooks; two sons, William E. Brooks of Vincennes, Ind., and J. Bolling Brooks of Graceville, Fla.; and a daughter, Mrs. W.G. Champlin of Pensacola, Fla.

Vernon James Douglass '16 of Birmingham died September 1. A veteran of World War I, he received his master's degree from the University of Alabama, was admitted to the State Bar in 1930, and served in the Alabama Legislature from 1932-1936. He also served with the Birmingham Board of Education for 46 years as director of vocational education and directed the veteran's training program in Birmingham following World War II. In addition, he organized the first program in Alabama for the training of licensed practical nurses. He had been president of the Birmingham Education Association and the Birmingham Credit Union. Survivors include his wife, Kate Floyd Douglass '23 of Birmingham; a daughter, Dr. Katherine Douglass '49 of Bradford, Miss.; a son, James A. Douglass '57 of Gulf Breeze, Fla.; three grandchildren, and a sister, Mrs. Paul Holdt of Cincinnati, Ohio.

Retired Major General **Wilson Burton (Jerry) Persons '16** of Fort Lauderdale, Fla., died September 5. A brother of the late former Alabama governor Gordon Persons, he was chosen by President Dwight D. Eisenhower in 1958 as his chief assistant. Before his appointment to the new post, Gen. Persons had been chief congressional liaison for the Eisenhower Administration and personal assistant to the President. Gen. Persons graduated from Auburn at age twenty with top honors in engineering and went to work for Western Electric Co. in Lynn, Mass., for \$75 a month. He was in Lynn when the United States entered World War I. He was given a commission and served as a coast artilleryman in this country and France, but signed up as a regular while overseas, later switching to the signal corps. In the late 1920s he was professor of military science and tactics at the University of Minnesota, but moved to Washington in 1931, where he was assigned to the office of the Secretary of War. There he met Maj. Dwight D. Eisenhower, starting a friendship that lasted until Eisenhower's death. During World War II he advanced to major general and was given the job of steering Army appropriations through Congress. He retired from the Army to become superintendent of Staunton (Va.) Military Academy. In 1951, however, he returned to Washington to help Eisenhower campaign for and win the Presidency. In 1958, he became the President's chief assistant, then retired from government work in 1960. In 1961 he became director of Graham-Eckes Prep School in Palm Beach, Fla. He lived in a Fort Lauderdale waterfront home decorated with paintings by Eisenhower. Survivors include a son, Maj. Gen. Wilton B. Persons, Jr., judge advocate of the Army.

James Weston Miller '17 of Minden, La., died February 18, according to information received in the Alumni Office.

Albert Johnson Kirby '18 of Natchez, Miss., died May 1, according to information received in the Alumni Office.

Donald Brinton Hammond '19 of Dothan is deceased, according to information received in the Alumni Office.

Clyde D. Watson '19 of Clayton died August 20. He was a veteran of World War I, a former mayor of Clayton, and a retired U.S. postmaster. Survivors include a son, Eugene Watson of Birmingham.

John Storrs Cross '24 died November 8, 1976, while he and his wife were on the way to their winter home in Bethesda, Md. Early in his career he was employed in the engineering laboratory of the Studebaker Corporation; with the Realty Trust Co. of Detroit; as construction superintendent of S.S. Dresge Co., and as survey chief of the Michigan State Highway Department. He entered Federal service in 1931 as a field engineer with the National Park Service. For two and a half years he was engineer in charge of Hot Springs National Park. In 1935 he transferred to Washington and subsequently was named assistant chief of engineering for the National Park Service. During World War II, Mr. Cross was a line officer in the Navy and in charge of building, maintaining, and operating communication systems of worldwide scope. He left the Navy in 1946 with the rank of captain to become assistant chief of the Telecommunications Division. In that post he worked closely with the FCC in global radio matters affecting the United States. While with the State Department, he attended 18 international conferences as a member or chairman of delegations representing this country. In 1958 he was appointed by President Eisenhower to the Federal Communications Commission, where he served until 1962. After his term as commissioner expired, he established his own telecommunications consulting company and continued his longterm association with the Radio Technical Commission for Marine Services. He was founder of that organization and was vice chairman from 1957 until his death. He was a member of the National Broadcasters Club, and a lifetime member of Broadcast Pioneers. Survivors include his wife, Ruth Fuller Cross, of Eureka Springs, Ark.; two sons, John Fuller Cross, president of the Bank of Eureka, Eureka Springs, Ark., and Capt. Claude Christopher Cross, U.S. Navy, who is on the staff of the Commander in Chief, U.S. Atlantic Fleet, Norfolk, Va.; and a sister, Mrs. Elise C. Wood of Mullins, S.C.

George Henry Bewig '26 of Selma died May 12, according to information received in the Alumni

Office. Survivors include his wife, Mary C. Bewig of Selma.

Clarence Arnold Smith '26 of Montgomery died August 17 after an extended illness in a nursing home. Survivors include his wife, Helen T. Smith.

Samuel Agee (Sam) Bonifay '26 of Anniston died July 26 of a heart attack following surgery. Survivors include his wife.

Jeff Crew Sellers '27 of Montgomery died August 17 after an extended illness. Survivors include his wife, Susie M. Sellers of Montgomery; one son, Jeff Crews Sellers, Jr., of Cypress, Texas; two sisters, Mrs. Mary S. Yancey of Hope Hull and Mrs. Mildred S. Youngberg of Washington; and three grandchildren, Susan Sellers, Jeff C. Sellers, III, and Nancy Sellers, all of Cypress, Texas.

Richard J. Holleman '28 of Columbus, Ga., died November 9, 1976 of cancer. Survivors include his wife.

Aubrey Ray Ward '28 of Grove Hill died August 27, according to information received in the Alumni Office. Survivors include his wife, Blanche Ward.

Ellis J. Sellers, Jr., '28 of Mobile died August 18. Survivors include his wife, Johnnie Evelyn McLaney Sellers of Mobile; two sons, Ennis G. Sellers of Mobile, and William P. Sellers, Sr., of Bell, Fla.; five grandchildren, David Sellers, William Sellers, and Susan Sellers, all of Mobile, William P. Sellers, Jr., of Bell, Fla., and Mrs. Suzanne Flowers of Louisville, Ky.

John E. Granger '28 of Bessemer died June 21. Survivors include his wife, Margaret Granger; one daughter, Mrs. Donald A. Moseley of Birmingham; three grandchildren; three brothers, Walter Granger of Bessemer, W.G. Granger of Jacksonville, Fla., and Earnest Granger of Dublin, Ga.; one sister, Mrs. Jay Laylock of Tuscaloosa.

John Calvin McLendon '28 of Cottonton died December 31 after an extended illness. He taught at Lanier High School in Montgomery after graduating from Auburn, then went on to the Cumberland Law School in Tennessee, where he earned an LLB degree. At the end of World War II, he was a lawyer with the Nuremberg Trials. In 1958 he retired from the Air Force after more than thirty years' service. Survivors include his wife, Katherine McLendon, of Cottonton.

Edmund Simeon (Mac) McCree '30 of Auburn died July 13 at his home. An Auburn resident for thirty

years, he worked as a highway engineer for the state. He is survived by his wife, Alice McCree; three daughters, Arlynn Rife of Manchester, Minn., Linda Hallberg of Allentown, Pa., and Martha Lynch of Leesburg, Va.; nine grandchildren; two sisters, Ann Norris of Kissimmee, Fla., and Gladys Ward of Athens. Mr. McCree also had another daughter, the late Sara Beard.

Leonard F. Rogers '30 of Winona, Miss., died in July, 1976. Survivors include his wife.

Bertice Quinn Scruggs '30 of Talladega died December 26, according to information received in the Alumni Office. Survivors include his wife.

Dupont Douglas Stroud '31 of Albany, Ga., died on April 23. Survivors include his wife, Kathleen Stroud.

Samuel Walter Hixon, Jr., '32 died August 25 at his home in Hampton, Va. Former head of training and education services at NASA Langley Research Center, he grew up in Perote, Ala., but had been a Peninsula resident for 38 years. Before joining the staff at LRC in 1939, he had been a teacher, athletic director, and principal in Alabama public schools and served with the Navy Department in Washington. At Langley he began as an assistant mechanical draftsman and later was assistant superintendent of draftsmen and administrator for the apprentice program. In 1946 he was named head of the training office, a post he held until he transferred to NASA headquarters in Washington in 1970. From 1970 until his retirement in 1971 he was head of NASA's personnel development program. In 1962 he received the Washington Chapter of the American Society of Training Director's Function Award. In 1963 he received the William F. Patterson Memorial Award of the U.S. Department of Labor on behalf of the Langley Apprentice Program, and in 1967 he was named the Federal Civil Service Employee of the Year for the Hampton Roads area. Mr. Hixon was a member of Kappa Delta Pi, national honorary society, and a member of the the NASA Supervisors Club. Survivors include his wife, Emily B. Hixon; two daughters, Mrs. Joan H. McMenemy of Dallas, Texas, and Mrs. Sharon H. Scott of Fort Worth, Texas; a son, Samuel W. Hixon, III, of Richmond, Va.; two sisters, Lillian C. Hixon of Birmingham, and Mrs. Carolyn H. Harris of Gadsden; three brothers, Langdon R. Hixon of Knoxville, Tenn., Charles W. Hixon of Perote, and Daniel A. Hixon of Birmingham, and four grandchildren.

Augustus Bennett (Guss) Kennedy '32 of Foley died February 25, 1973, according to information received in the Alumni Office. Survivors include his wife, Margie E. Kennedy.

(Continued on page 21)

In Memoriam—Continued

Charles Eric Kennedy '32 of Foley died January 8, 1975, according to information received in the Alumni Office.

Curtis Adrian Gentry '34 died of a heart attack in 1968, according to information recently received in the Alumni Office. Survivors include a daughter, Mrs. Gregory Rust '61.

Charles Marshall Reeves, Jr., '35 is deceased, according to information received in the Alumni Office.

Norman E. Foster '36 of Weatherford, Okla., died June 29, according to information received in the Alumni Office. Survivors include his wife.

Nathan Alexander Carter, Jr., '37 of Memphis, Tenn., died July 17, according to information received in the Alumni Office.

Carl Austin Rudder '37 of Monroeville died October 2, 1976, according to information received in the Alumni Office. Survivors include a sister, Mrs. Herbert A. Bean, of Monroeville.

Ralph G. Sargeant '37 of Lakeland, Fla., died March 11. A native of Birmingham, he lived in Lakeland for 57 years. He worked with B.C. Skinner in the early years of citrus concentrate, was employed by Pasco Packing Co., and built the concentrate plant at Griffin, Fla., under the name of Sargeant Citrus Concentration. In recent years he devoted his time to food process research. He holds several patents involving the use of radio frequency energy. Survivors include his wife, Margaret Sargeant of Lakeland; a son, Ralph G. Sargeant of Lakeland; a daughter, Mrs. Walter Cornett, III, of Lakeland; two brothers, J. Stanley Sargeant and John B. Sargeant, both of Lakeland; and four grandchildren.

Col. Thomas Jackson Bowen '39 of McComb, Miss., died recently at the Veterans' Administration Hospital in Jackson, Miss., following a short illness. Col. Bowen retired in 1968 after serving 30 years with the U.S. Army Corps of Engineers. That year, he earned the nation's highest peacetime award, the Distinguished Service Medal, for services rendered after Hurricane Betsy hit New Orleans, where he was the district engineer. During his career, the colonel had tours of duty in Iceland, Germany, France, Turkey, Japan, and Vietnam. Upon retiring from the Army, he became first engineer for the Louisiana Superdome in New Orleans. Survivors include his wife, Grace Allen Bowen; one daughter, Mary Ellen Varnell; one granddaughter, Corey Allen Varnell; four brothers, Roy Bowen and Charles Bowen of Tallassee, Ferrell Bowen of Miami, Fla., and Buford Bowen of Tryon, N.C.; two sisters, Mrs. Mary

Lisman of Opelika and Mrs. Gertrude Stolenwreck of Montgomery.

James H. Hogue '40 of Atlanta, Ga., died in May, 1970, of a heart attack, according to information received in the Alumni Office. Survivors include his wife, Frances Mullen Hogue '39, and a son, James H. Hogue, Jr., '69.

Annie Katherine Moon Haley '40 of Huntsville died August 28 at her home. She was a member of the Auburn honor society and an alternate in the 1940 beauty pageant. Survivors include her husband, Foster A. Haley '48, and two sons, Paul R. Lees Haley and John Haley.

Cmdr. Howard Stanley (Doc) Hyde '40, USN, of Annandale, Va., died August 23 at his home. He had been stationed in Washington, D.C. as chief inventory control assistant for the Bureau of Ships, had served as executive supply officer of the American Embassy in London, as Far East desk officer with the Department of Defense, and as chief of the textile division in Philadelphia. He retired in 1963 with 22 years of service. He worked with Cafritz and with the Noland Company after retirement. In addition to graduating from Auburn, he earned degrees from Harvard Supply School and the Naval War College. Survivors include his wife, Angie Lamb Hyde of Annandale, Va.; his mother, Mrs. G.W. Hyde of Birmingham; and a sister and a brother, Mrs. F.P. Hyde and W.R. Hyde, both of Birmingham.

Eva Dearman Owens '49 of Phenix City died July 20, according to information received in the Alumni Office.

Frederic Pickett (Fred) Strother '40 of West Point, Ga., died June 30 at his home. Survivors include his wife, Dimple Olds Strother; a daughter, Mrs. Polly Summerall of Columbus, Ga.; three sons, Fred P. Strother '57 of St. Petersburg, Fla., T. Frank Strother '66 of Raleigh, N.C., and John Stephen Strother of West Point; a half sister, Mrs. Clifford Compton of Demopolis; a half brother, T.B. Strother of Catherine; and six grandchildren.

Levi Blackburn Freeland, Jr., '41 of Mobile died July 26, according to information received in the Alumni Office.

Richard Dunwoody Hall '41 of College Park, Ga., died November 15, 1976, of a heart attack. Survivors include his wife, Gladys Enloe Hall; a son, Richard D. Hall, Jr.; and two daughters, Mrs. K.M. Husht and Paige Enloe Hall; and four grandchildren.

William Philip Camp '42 of Savannah, Ga., died July 4. Survivors include his wife, Jean S. Camp.

Elbert C. Davidson '42 of Cullman is deceased, according to information received in the Alumni Office.

James Nelson Bourne '43 of Brandon, Miss., died recently after an extended illness. He had lived in the Jackson area since 1947 and was partner in the real estate firm of Bourne-McGehee. He was active in the civic, business, and religious affairs of his community, having been a past president of the Northside Sertoma Club, immediate past president of the Jackson Board of Realtors, the High Noon Toastmasters Club, and a charter member of the Central Mississippi Detachment of Marine Corps League. In World War II, he served with the Marine Corps. He received the Bronze Star and Purple Heart from the Iwo Jima campaign and was medically retired as a captain in 1946. He is survived by his wife, Mary Ellen Johnson Bourne; a son, Ted Bourne of Jackson, Miss.; two daughters, Mrs. Barbara Edwards of Ridgeland, Miss., and Mrs. Michael (Irene) Pooser of Arcadia, Fla.; his mother, Mrs. J.E. Bourne of Grace, Miss.; a sister, Mrs. Von B. (Mildred) Dunaway of Jackson, Miss.; a brother, Emmett L. Bourne of Sumner, Miss.; and a granddaughter.

John Frank Lankford '43 of Wilsonville died July 27, according to information received in the Alumni Office. Survivors include his wife.

Ovia Lester Duncan '45 of Phenix City died August 19, according to information received in the Alumni Office. Survivors include his wife, Kathleen Duncan.

Rev. Charles Spurgeon Heard '47 of Carrollton, Ga., died May 28, according to information received in the Alumni Office. Survivors include his wife.

Fred William O. Kelly '48 of Huntsville died January 31, 1976, according to information received in the Alumni Office. Survivors include his wife.

Virginia Wilcaxon Pate '48 of Mobile is deceased, according to information received in the Alumni Office. Survivors include her husband, James F. Pate, Jr., '48.

William Edward (Bill) Welch, Jr., '49 of Fort Walton Beach, Fla., died October 27, 1976, following an extended illness. He was an electrical engineering graduate and until his illness was an electronics engineer with Civil Service. He was a Navy veteran. Survivors include his wife, Hazel McCurley Welch; a son and daughter, Terry Douglas Welch and Tana Sue Welch, both of Fort Walton Beach, Fla.; his father, William E. Welch, Sr., of Springville; and one brother, James A. Welch '55 of Columbus, Ga.

Cecelia Jean Brackin McCollum '51 of Birmingham is deceased, according to information

received in the Alumni Office. Survivors include her husband, Roy T. McCollum.

Leo Willis Carr '52 of Meridian, Miss., is deceased. He was employed by J.C. Penney of Meridian. Survivors include his wife, Jenny Carr; two stepsons, Robert Earl, Jackson, Miss., and Carl Erick Metzger, Montgomery.

Marie Earle Coggins De Medicis '53 of Birmingham died June 24. Survivors include her husband, Lt. Col. Jack DeMedicis '51.

James Paul Richardson '54 of Montgomery died April 23 of a heart attack. He was the owner of Richardson's Cloverdale Pharmacy. Survivors include his wife, Anne M. Richardson; a daughter, Susan Beth, a senior at Auburn; a son, James Richardson, Jr., a freshman at Auburn University at Montgomery.

Bobby Joe Moore '54 of Morristown, Tenn., died April 12 of a cerebral hemorrhage. A resident of Morristown for only two years, he was a director of the Morristown Area Chamber of Commerce and chairman of its industrial board, as well as president and chief executive officer of the Hamilton Bank of Morristown. He came to Morristown from Knoxville, where he had been president of the First American Bank and the American Business Women's Association had selected him "Boss of the Year for 1975." He began his banking career in Birmingham with Birmingham Trust Co. and later was vice president of Exchange Security Bank in Birmingham. He was president of the First Colbert National Bank at Sheffield before joining the Knoxville Bank. Mr. Moore is survived by his wife, Jo Ann Norton Moore; daughters Melanie Ann, a pharmacy student at Auburn, and Allison Lee, a junior in high school; son, Robert Norton Moore, a senior in high school, and his parents, Mr. and Mrs. Burl Moore of Sheffield.

Buel David Gilliland '55 died October 23, 1976. He lived in Lithia Springs, Ga. Survivors include his wife.

Marian Nadine Keist Smith '56 of Edna, Tex., died August 10. She was an English teacher at Edna High School and a registered medical technician. Survivors include her husband, Jack; two daughters, Linda and Carolyn, all of Edna, Tex.; mother, Mrs. B.F. Keist; brother, Noble Keist, and sister Cecilia K. Boyce, all of Portland, Ore.

William D. Ballenger '56 died of Hodgkins Disease on April 24, 1961 according to information recently received by the Alumni Office.

Robert Grady Wilson '57 of Huntsville was accidentally shot and killed on October 2, 1976. Survivors include his wife, Ann. Mr. Wilson held both bachelor's and

master's degrees in mechanical engineering from Auburn.

Joseph Augustus Willman, Jr., '58 of New Orleans died August 5 in a local hospital. Survivors include his father, Joseph A. Willman '31 of Jacksonville, Fla.; his wife, Ann Hopson Willman of New Orleans; one daughter, Eleanor Willman; three sons, Joseph, John, and David Willman, all of New Orleans; three sisters, Mrs. Hal Sumrall of Opelika, Mrs. Margaret Meadors of Montgomery, and Mrs. Helen G. Wouters of Denver, Colo.; and one brother, Harris G. Willman of Jacksonville, Fla.

Annie May Ward Gaither '60 of Cuba died in January. Survivors include her husband, Ethon E. Gaither '33 of Cuba, and son, E. Erick Gaither, Jr., '63 of Norcross, Ga.

Joan Stuart Craig Head '62 of Rochester, N.Y., is deceased according to information received in the Alumni Office. Survivors include her husband, Dr. William F. Head, Jr., '54 of Rochester.

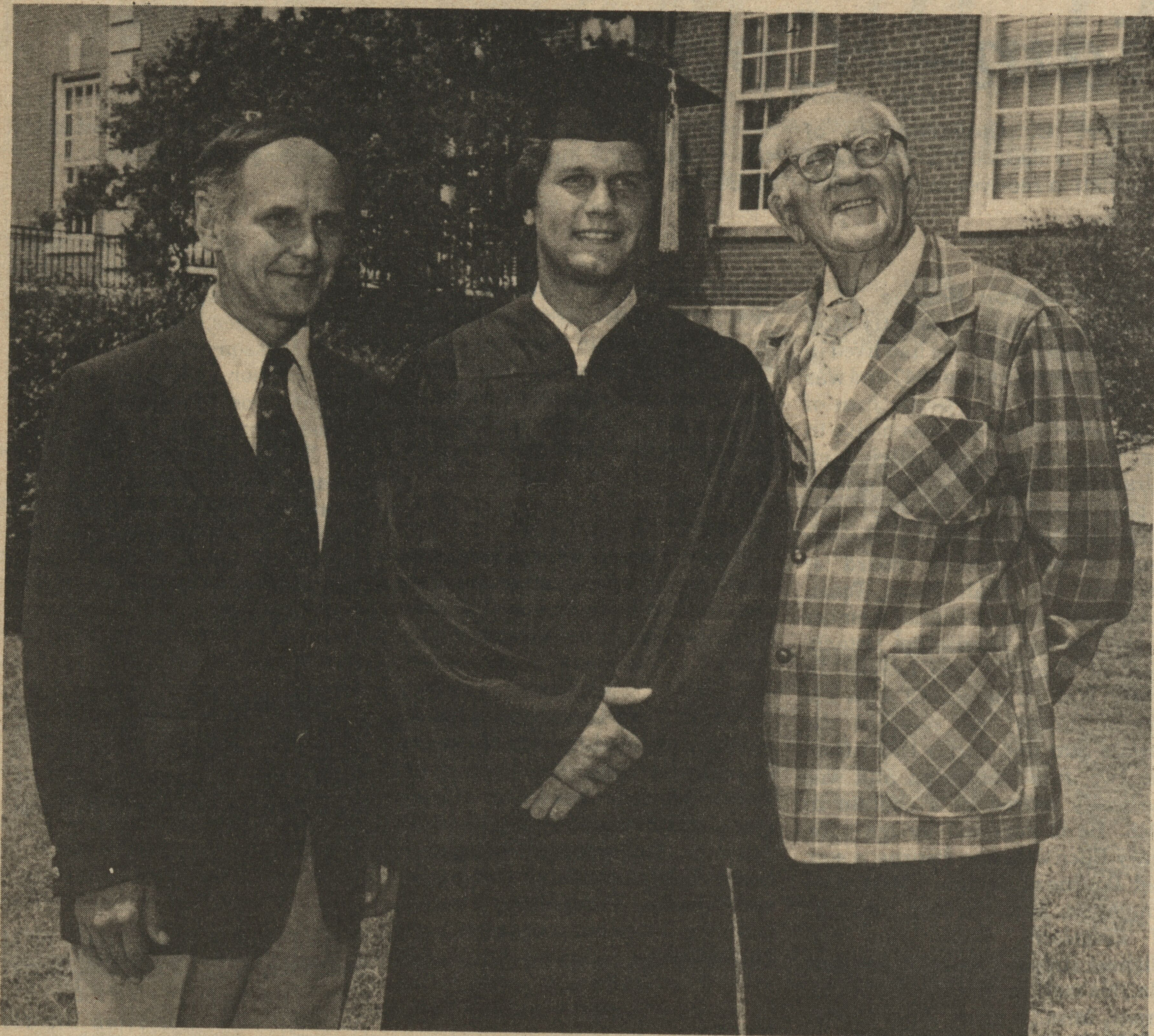

Dr. Ivey Farris Walker '62 of Auburn died in late May. He was an Opelika dentist. Survivors include his daughters, Kim and Kay, of Opelika; his mother, Mrs. I.H. Walker of Dothan; three sisters, Mrs. Ferrell Gibson of Brundidge, Mrs. Ard Chambers of Montevallo, and Mrs. Jeanette Byars of Dothan; and one brother, Therman Walker of Dothan.

Dr. Jere D. Fowler '63 of Memphis, Tenn., committed suicide following the shooting of his wife on June 29. He was president of Memphis Animal Hospital, Inc. The firm owned the Expressway Animal Hospital, the Airport Animal Hospital, and the Germantown Small Animal Hospital. He had been in Memphis since graduating from the Auburn School of Veterinary Medicine. Survivors include two young sons, Jere Dean Fowler, Jr., and Jonathan F. Fowler; three brothers, Jim Fowler of Memphis and John E. Fowler and William L. Fowler, Jr. of Kenton, Tenn.; and his mother, Mrs. Jean W. Fowler of Memphis.

Robert W. Holley '63 of Fairfax is deceased according to information received in the Alumni Office.

S/Sgt. Frank Spencer Bailey '67 of Marion died of cancer on April 30. Survivors include his father, John Bailey of Marion.

Martha Garrett Miller '77 of Prattville died July 1. She was a graduate of Grissom High in Huntsville and was 25 hours away from a degree from Auburn. Survivors include her husband Trent Miller '74; her parents, Mr. and Mrs. Lee S. Garrett of Arlington, Va., and a brother, Stan Garrett of Pensacola.

THIRD GENERATION—When Edward Russell Moulton graduated in business in August, he was carrying on a family tradition. On hand for his graduation were his father, left, John Lewis Moulton '49, and his grandfather E. Russell Moulton '24.

School.... A daughter, Sholeh, to Dr. and Mrs. Haghdad Memaouri on July 8. Dr. Haghdad is chairman of the Department of Math at the National University of Iran in Tehran, Iran.... A son, Matthew Schuyler, to Lt. (jg) and Mrs. Michael D. Clark on September 8, 1976. Michael is currently the AEMO aboard the USS America, homeported in Norfolk, Va.

1976
